

14 ARE KILLED WHEN TRAIN HITS BUS

GAS TANK BURSTS AND BODIES BURN IN WRECK DEBRIS

Engineer Gives a Graphic Account of Collision Fatal To Many.

OTHERS ARE INJURED

Speeding Express Makes Kindling of Auto at Ohio Crossing.

CLEVELAND, O., March 4.—The death of George E. McChesney today brought the toll from the collision between a New York Central express train and an automobile bus at Painesville late last night up to 14. Five persons are seriously injured, three of whom are not expected to live.

A coroner's inquest will be held at Painesville this morning. City officials of Painesville and officials of the New York Central railroad started an investigation this morning.

D. R. McBain, assistant general manager of the New York Central, this morning gave out a statement regarding the collision in which he said the disaster evidently resulted through the bus driver's trying to beat the train.

Mr. McBain's statement in part follows:

"This crossing is protected by a watchman who was on duty at the time of the accident and who endeavored to stop the bus, and warned the driver of the imminent danger by waving a red light. We have witnesses to verify this action of the watchman. Evidently the bus driver wanted to beat the train which resulted in the disaster that followed.

"After striking the bus the train ran about 20 car lengths before it was stopped. Witnesses verify the declaration of the engineer that the electric headlight, which can be seen for a distance of five miles when unobstructed, was burning brightly. The whistle was blowing and the bell ringing. The crossing is not unobstructed and a clear view from the west can be had."

Three Removed from Engine. The statement said that several occupants of the bus jumped and escaped unhurt. Three of the dead were found on the locomotive's pilot when the train was brought from its 60-mile-an-hour pace to a halt about three blocks from the scene of the collision. Most of those killed had left a dance hall in Painesville, less than an hour before the crash, where several attended a lodge meeting. Two had just boarded the bus when the accident occurred.

An explosion of the gas tank of the machine set fire to the debris and several of the bodies were badly burned.

The bus was operated between Painesville and Fairport. A. Barnes, the crossing watchman, declared that he flagged the driver, who had stopped on the south side of the track to pick up passengers.

"I saw the train before we reached the track," Carl Sullivan, one of the injured said. "We had stopped to take on two passengers just south of the railroad or we would have been across."

Driver Pulled Lever.

"People near me screamed as the engine came on. I saw the driver reach down and pull something. I don't know whether it speeded us up or slowed us down. It was dark in the machine. I thought we had cleared the track. Then it hit us." The train was composed of 20 express coaches. It does not stop at Painesville.

"I blew the whistle just as I reached the limits of the town," Engineer Perandez declared. "An instant later I saw the automobile on the track immediately ahead of me. The interval before we struck the bus was so brief that I could not even know whether the automobile was standing or in motion."

"As I threw on the brakes I felt the collision and fragments of the wreckage flew past the engine cab. I am sure we stopped as soon as possible."

ADA BAND TO RENDER CONCERT FOR HOMER

The boy's out band will leave tomorrow afternoon for Homer where they will render a musical program. Harry W. Miller, scout executive stated today.

The cars will leave the First Christian church and as a hard surface road leads to the school house. No trouble is expected from the mud.

"UPPER SET" SMOKED; LESSER ONES FOLLOW

CHICAGO, Ill., March 4.—"Smoking among women was introduced by the so-called upper set and then imitated by others," said Dean Marion Talbot in introducing recently to residents of Green Hall, a girls' dormitory at the University of Chicago, a request from President Harry Pratt Judson that there be no smoking in the dormitory. "Now," continued Miss Talbot, "those who introduced the practice are abandoning it because it has become common. Therefore I think it is time for the rest of us to do likewise. I would suggest that any person so addicted to tobacco that they cannot do without it seek quarters elsewhere."

"Though there has been no action by the student government board barring women smokers," a student residing in Green Hall said today, "if there has been any smoking in the hall since President Judson's message was read with Dean Talbot's comment, I have seen none of it. At any rate, I am satisfied there is none on my floor."

MANY OF CITY'S CHILDREN UNDER WEIGHT, REPORT

Sixty-Eight Percent of Ada School Kiddies Are Too Light, Nurse Says.

POORLY NOURISHED

Bad Tonsils Check Progress of Number, Hickman Declares.

Sixty-eight percent of Ada's 1,346 school children examined by Mrs. Lucy Henderson, public health nurse, since she started work here about three weeks ago are underweight, according to a summarized statement given out this morning by City Superintendent J. E. Hickman, chairman of the county committee supervising the survey.

This report indicates, was the most prevalent single defect. Forty-one percent of the children were not sufficiently nourished, 40 percent had bad tonsils, 24 percent were overweight, 23 percent had adenoids, 18 percent had bad teeth, and 11 percent were suffering with defective eyes.

The report was for five city ward schools, Irving, Washington, Willard, Glenwood, and Hayes. Corrective measures were suggested by the nurse and a report will be made later by Mr. Hickman showing the results of these efforts at improvement of individual children.

Following is the itemized report:

Irving School.

Number of pupils examined, 291.

Number found with defective or diseased eyes, 32.

Number found with diseased ears, 1.

Number found with adenoids, 57.

Number found with tonsils that should be removed, 107.

Number found with bad teeth, 28.

Number found with skin diseases, six.

Number found over weight, 62.

Number found under weight, 210.

Number found under weight five or more pounds, indicating malnutrition, 134.

Washington School.

Number of pupils examined, 316.

Number found with defective or diseased eyes, 34.

Number found with adenoids, 72.

Number found with tonsils that should be removed, 151.

Number found with bad teeth 57.

Number found with skin diseases, four.

Number found over weight, 96.

Number found under weight, 185.

Number found under weight five or more pounds, indicating malnutrition, 95.

Willard School.

Number of pupils examined, 274.

Number found with defective or diseased eyes, 32.

Number found with adenoids, 65.

Number found with tonsils that should be removed, 109.

Number found with defective teeth, 59.

Number found with lung disease, indicating incipient tuberculosis, 1.

Number found over weight, 69.

Number found under weight, 196.

U. S. SHIPPING BUSINESS TO HAVE A NEW MASTER

CUT EARNINGS OF OPERATORS, PLEA

Mine Workers Object To a Reduction in Wage of Endangered Laborer.

(By the Associated Press) NEW YORK, March 4.—Cheaper anthracite coal for the public, to be made possible by slashing the mine owners' profits rather than by reduction of the laborers' wages is advocated by the United Mine Workers of America in a statement issued today.

"Mine owners freely admit that the cost of coal to the consumer is too high," declared the statement.

"Rather than make the reduction of the cost of the digging of the coal the —miners' wages— which is placed by the operators at \$3.90 a ton, it would be better to slash the profits of the mine owners."

The mine workers indicate that lower labor costs will represent a "bare living wage," whereas they insist "upon a wage compared with the hazard of the industry."

"The operators very skillfully avoid the reference to reductions of a substantial nature in the matter of their own profits," it continued. "It is therefore obvious that there must be some connection between the operators and all those who handle it between the operators and the consumers. The operators can see deflation only so far as the miners are continuance of the earnings of the operators, railroad, sales companies and others."

Police Hold Futile Search for Whipper of Madison Damsels

MADISON, Wis., March 4.—Efforts of police to locate the man who for the past 30 days has been terrorizing women on the west side of the city by his attacks on them with a heavy rawhide whip, had proved futile up to today. The chief said today that the reported capture several days ago of a man in sailor garb, who is believed responsible for the whippings which have been administered to a number of girls during the past few days, were without foundation.

Card of Thanks.

We wish to express our deepest appreciation to each one who so kindly and tenderly ministered to our darling baby. "May God bless you," is our prayer.

Mr. and Mrs. J. E. RUSSELL, and Children.

Thugs Seize Girl Cutting Off Hair With Dull Knife

(By the Associated Press) CHICAGO, March 4.—A girl 16 years of age was seized by two men here last night, as she was about to enter her home, forced into a vacant lot where the men demanded money, and when they learned she had none, she was compelled to let them hack off her hair with a jack knife. The girl was returning from church with several companions and had left them to pass down an alley leading to her home when the men caught her. Her assailants escaped.

THREE KILLED IN FIRE AT NORFOLK

Two Others Badly Burned As Boarding House Is Swept by Flames.

(By the Associated Press)

NORFOLK, March 4.—Three persons were burned to death and two others suffered burns in a fire that badly damaged a three story boarding house early today. The dead are:

Helen White, South Norfolk.

Lem McKinsley, of Caddock.

R. M. Wyatt, seaman second class naval Collier Orion.

E. C. Miller is in a hospital suffering from the effects of some slight burns about the face and body. His wife also is receiving medical attention.

ENGLISH GOLF LEADER WILL COME TO AMERICA

LONDON, Mar. 4.—Alan Gow, professional to the Banstead Downs golf club, Surrey, who has been appointed to the Edgewater club, Chicago, leaves England on March 14 to take up his new position. He will be accompanied by Forbes Leith, his assistant at Banstead Downs. The Surrey professional is the latest addition to the considerable list of British players who have drifted to American links in recent years.

Gow was born at Lochan, Perthshire, in 1885 and represented Scotland against England in the professional international match at Muirfield in 1912. He was for ten years professional at Gog-Magog, Cambridge, and went to Banstead Down in 1914, when Wilfred Reid left there for America.

WORK TAKES OVER U. S. POSTAL JOB

New Director of Mails Pays High Tribute To Hays In Installation.

(By the Associated Press)

WASHINGTON, March 4.—Dr. Hubert Work took the oath of office today as postmaster general, succeeding Will H. Hays, who had been a member of the cabinet for 1 year.

Dr. Work whose home is in Colorado, had been first assistant postmaster general under Mr. Hays. In a statement addressed to the personnel of the postal service the new cabinet official said Mr. Hays had "set up new ideals for postal service," adding that such ideals had been approved by the American people.

Dr. Work said it was his purpose to give substance to these visions. The oath of office was administered by Rush Holland, of Colorado, assistant Attorney General, in the presence of a group of friends of both Mr. Hays and Dr. Work, and a number of senate representatives and postal employees. Secretary Wallace, George B. Christian, secretary to the president, and Brigadier General Sawyer, president Harding's physician, also attended the ceremony.

After Dr. Work had been sworn in Mr. Hays told him that "all the regret over leaving the cabinet is completely and absolutely antidoted by the happiness in turning the post office department over to you, the individual."

Replying Dr. Work informed the retiring Postmaster General that it was "not possible to estimate the regret in this department of your departure."

Money To Continue Cross-Country Air Route Is Provided

WASHINGTON, March 4.—Funds to continue the country's transcontinental air mail service and restore the New York City pneumatic postal tube system are to be provided in the annual postal appropriation bill under an agreement reached by separate committee members in charge of the measure.

In passing the bill the house refused to provide for retention of these services and Postmaster General Hays recently appeared before the senate committee in their behalf.

BABY CAMEL ELIGIBLE AS "MASCOT OF 'DRYS'"

"Dry" forces of Pontotoc county awoke this morning to find that the desert had given them a new mascot.

It was a tiny camel, born last night in the fair ground stables where animals of the Honest Bill and Lucky Bill circuses are in winter quarters. The little beast is a husky one his keeper reports, and promises to be a worthy member of the Volstead family.

This is the third camel that has been born at the fair grounds since the shows started wintering there three years ago, according to William Newton, manager of the show which bears his name.

Keeping up with the vital statistics of a menagerie is an interesting job, animal keepers testify. Two elephants and an ostrich have died in recent years and several cages have had an increase in population. Early this winter, soon after the shows went into winter quarters, three lion cubs were added to the lot.

Casualties in the monkey family have run rather high, it is said.

MISSIONARY IS MURDERED NEAR BATANG, THIBET

Religious Pioneer Was the Father of Enid Man; Fame Widespread.

VISITED STATE LATELY

Wife in Calcutta Having Bible Translated Into Thibetan Tongue.

(By the Associated Press)

ST. LOUIS, March 4.—The Rev. Dr. A. R. L. Shelton, medical missionary of the Disciples of Christ (Christian Church), was murdered by robbers near Batang, February 17, according to a cablegram received by the United States Christian Missionary Society here today. Dr. Shelton escaped from a band of robbers in China in January of 1920 after being kidnapped and held for ransom for 60 days.

ENID, March 4.—Rev. A. L. Shelton, whose murder near Batang, Thibet, China, is reported, is a son of J. O. Shelton of Enid. He was one of the best known missionaries in China, having spent 18 years in religious work among the Thibetans. He visited in Enid several months during the winter of 1920-1921, leaving here last July and embarking at Vancouver, British Columbia, in August, 1920, on his return journey.

Mr. Shelton was on his way to Hong Kong with his wife and two daughters, Doris and Dorothy, who were enroute to America when the bandits captured him and held him for ransom. While a captive for 60 days a tumor developed on his neck and after his escape he came on to America with his family, to undergo an operation at Rochester, Minn.

Rev. Shelton's daughters are in Pomona, Calif., with their grandparents. Mrs. Shelton accompanied him on his return trip as far as Hong Kong, leaving him to go to Calcutta, India, where she is having the Bible translated into the Thibetan tongue.

First Missionary There Dr. Shelton was the first Chinese missionary to be allowed to enter Thibet.

The announcement of his death was made by the United Christian Missionary Society, which received a cablegram from Dr. W. M. Hardy, also a medical missionary in China which read:

"Robbers killed Shelton near Batang, February 17. Notify girls."

The girls referred to are Dorothy, 17, and Doris, 15, who are attending school in Pomona, Calif.

RADIO TELEPHONE IS USED CONCERNING ROBBERS

(By the Associated Press)

LOUISVILLE, Ky., Mar. 4.—The radio telephone was employed early today to broadcast descriptions of four robbers who last night bound and gagged James T. Clark, his wife and two negro servants and escaped with diamonds valued at \$10,000 and approximately \$250 in cash.

TAXPAYERS SEE HARD EXCHANGE OF ALLEGATIONS

Reports of Committees Get Officials Into Lively Speeches.

SEWAGE PLANT ISSUE

Mayor Answers Questions Advanced on Reservoir and Street Work.

Alleged heavy expenditure of city money for a sewage disposal plant that is "yet incomplete" and charges that the one unit which is complete is not properly functioning were advanced by a committee of taxpayers' League at a meeting of that organization in the district court room last night.

Stirring scenes developed when sharp clashes between members of the various committees and city and state officials came to a head after an exchange of stinging speeches. Harmony prevailed, however, when the meeting closed. Members of the league voted to turn the meeting next Friday night over to candidates for city offices in order that they might have an opportunity to advance their programs for good municipal government.

Following is the report of the committee on sewage disposal plant, which was submitted and adopted by the league:

"First—Upon investigation we find one unit of the plant completed.

"The contract for this unit was let to Don Tolbert, about four years ago, for a price approximately \$26,000. Mr. Tolbert quit the job after spending the greater part of the contract price and before the plant was any way near complete.

"About the time he quit, there was a change in the city administration and P. H. Deal was elected Commissioner of Public Works. "He took the matter up with Mr. Tolbert's bondsmen, the Southern Surety Co., and forced them to complete the contract without additional cost to the city.

"This unit would now be giving good service, if it had been properly handled but because of neglect, it is not working properly.

"We find this due to the following causes:

"First. The sludge is not drawn off from the Imhoff Tank as often as it should be which causes a heavy scum to rise to the top which creates a stench or bad odor and if neglected too long will clog the Imhoff tank and ultimately ruin it.

"Second. The sludge that has been drawn from the Imhoff Tank has been allowed to remain in the sludge bed, until it is filled to the danger point.

Allow Sludge to Dry.

"The sludge should be allowed to dry, in the bed and be burned or carted away and when allowed to accumulate, becomes dangerous to the health of the community.

"Third. The contact beds, through which the sewage passes and is filtered, after leaving the Imhoff Tank, have been woefully neglected.

"This system of filtration, known as contact beds, is composed of four compartments, filled with crushed stone, to a depth of four feet and when working properly, they fill and empty alternately; but from present indications, it seems that the automatic valves have been neglected; which causes the sewage to run into one bed for too great a length of time, causing the solid matter to fill the voids, in the crushed stone, until their usefulness, as filters, have been greatly impaired.

"In addition to this we found much valuable property, consisting of valves, castings, tilting and other material, scattered around the plant, exposed to the weather and acts of vandalism, which should be housed and cared for, as the city has ample storage room to care for it and a team and well paid help to haul it.

"It is our opinion that the Imhoff system is an efficient method of handling sewage and that this unit, if handled in an intelligent manner would care for about 50 percent of the sewage of our city; but until it is properly handled, it causes the sewage to be a menace to health.

One Unit Not Enough.

"Continuing our investigation, we found that the city commissioners, in conjunction with the engineers and the committee from the Chamber of Commerce, after making a careful survey, decided that the one unit was not sufficient to handle the sewage and deemed it best to construct another unit, of the same size, with the addition of one sludge

BIBLE THOUGHT FOR TODAY

ETERNAL LIFE:—Thou shalt love the Lord thy God with all thy heart, and with all thy soul, and with all thy strength, and with all thy mind: and thy neighbor as thyself. This do and thou shalt live.—Luke 10:27,28.

An Example of Tax Exemption.

A probate court fight among the heirs of James J. Hill and Mrs. Hill has been on of late in St. Paul. The row has been over the appointment of an administrator for Mrs. Hill's estate of \$12,000,000. But that is only incidental here. The significant point of public interest is that Louis W. Hill, former business advisor for Mrs. Hill, testified that beginning in 1916 and continuing until 1919, he disposed of heavily taxed securities held by his principal, substituting therefor tax free holdings, and in this way increased her annual income from \$365,000 to \$730,000 a year; that is he doubled net returns.

Here is a concrete example of the working of the tax exempt bond evil anybody can understand at a glance. In a single instance, in the case of a personal fortune, which is surpassed by several in Michigan which have been similarly invested, a little shrewd readjustment has withdrawn \$365,000 annually from the reach of the tax gatherers.

But the money thus lost to the public treasuries must be found somewhere, and so the burden is shifted to business enterprise, to people who are obliged to work for their livings, to the widow with a cottage instead of a palace.

If the case of the estate of Mrs. Hill were an isolated one the matter would not be worth mentioning. But unfortunately it is typical of hundreds of other cases. A good many billions of dollars are tied up in tax exempt securities in this country. Figure very conservatively on the basis of what was done with the estate of Mrs. Hill by expert handling, and in extra weight of taxation placed in consequence on the shoulders of those whose property enjoys no exemptions becomes appalling. It runs into the hundreds of millions, possibly into the billions annually. It easily makes the difference between a situation in which the nation could handle its financial problems easily, and the present very difficult economic condition.—Detroit Free Press.

Let a Man Change.

We hear entirely too much about consistency. The world is prone to judge a man by one or two acts, and to take it for granted that his beliefs and his nature itself may not change. It is true that a person over a period of years may follow one course until that course has mastered him and it is as impossible for him to change as it is for the leopard to change his spots. But there is no reason for it. In fact, it was Emerson, was it not, who said that he never gave a thought to consistency. He said one day what he thought and the next day he said what he thought, even though it might be exactly opposed to what he said today.

Marcus Aurelius gave the world a brilliant idea along the same line: "If any man can convince me that I do not think or act right, gladly will I change; for I search after truth, by which man never yet was harmed. But he is harmed, who abideth on still in his deception and ignorance."

The first year of the Harding administration has now passed into history. The country was promised many things in the last campaign but nothing has yet been done of special benefit to the nation or that will even make good campaign dope for this year. The republican party has always boasted of its constructive ability but this time it has been very much at sea and uncertain which way to steer. For one thing it has lacked leadership. No man has appeared with a program definite enough to command a following and matters have been permitted to drift. The drifting has been in the wrong direction and the country still waits for some of the great things that were to restore prosperity. For the past quarter of a century in every campaign the public has been regaled with stories about soup kitchen days in Cleveland's time but after this they will have a soup kitchen record of their own.

It is reported that Campbell Russell is going to take a straw vote on the question of announcing himself as candidate for a second term as corporation commissioner. In times past Cam was regarded as a strong radical and many interests were considerably concerned about his election to his present position, fearing that he would make life anything but pleasant for the interests under control of the commission. Their fears were unfounded, for rates of all kinds have been boosted right along and things have reached such a pass that Russell received only one solitary vote for endorsement at the non-partisan league convention at Shawnee.

Among other things this section can consider a blessing is that the influenza is not so serious as it has been in the past. Although many cases of this disease are reported, no deaths have resulted.

Congress cannot see the way clear to pay the boys who fought in the world war, but indications are that it will find a way to hand over a gob of money to the ship owners. Some idea of justice and efficiency this.

TO WHOM IT MAY CONCERN

The Forum of the Press

Ignorant Aliens.

(McAlester News Capital)
The ignorant alien is the menace of American institutions. Although we must not forget that our language is ploygot and that we individually have coursing through our veins the bloods of many nations and many peoples, we should never lose sight of the fact that the lower types are inferior to the Anglo-Saxon and Teutonic races.

The man who comes to America with the inbred blood of certain southern types in his veins may profit from America but America can never profit from him. Every cross, every generation is an improvement on his type. But what have does it work on types that are truer to American standards?

When America was in its most generic phases the men who sought to conquer it were strong. They tore fortune or at least existence from the soil, from the streams, from the air. The work that they did called for the most vigorous types that the old world could produce.

Through all ages this has been true. It was our hardy Norse fore-bearers who dared the ocean in open boats to the shores of New foundland. It was the most select type that conquered Kentucky and the Northwest. It was the most vigorous man who ventured to California in '49. It was the adventurer, the super-fit man, who braved the rigors of the frozen north to conquer the golden streams of Alaska.

Now with wealth and plenty on every hand, the less venturesome of the foreign types, driven by hunger at home, are impelled by a primary law of self-preservation, to seek home and shelter in America.

For generations the story of wealth in America has been carried to foreign lands by the more hardy spirits. Now the less vigorous types are inundating America, just as Rome and Athens were swept down by less vigorous types when the manly and strong men became soft, under the influence of too much wealth.

These men who spring from the loins of people who were too timid to take a risk in America when America called for strong men to conquer her, are the types that spread the germs of bolshevism and unrest.

Strong American types never spread red philosophy. The vigorous man is too busy getting what he wants to whine.

The weak-kneed race is inimical to American institutions, ideals and even the home race. We are being bred out.

Education Without Knowledge.

(Wichita Eagle)
University of Wisconsin students are dissatisfied with themselves, with their studies, their activities, their philosophy and everything. Only half of the seniors feel that they are getting enough from their education. Eighty percent of the men and 90 percent of the women are despondent. These statements were made recently in University of Wisconsin magazine announcing results of a questionnaire sent out. Aimlessness in study and lack of a definite objective after graduation is declared by the magazine to be outstanding qualities of the student of today, and a board is advocated to act as an employment agency, or as a "connecting link" between the university and the world.

Seventy-five percent of the under classmen do not know what they will do after they graduate, and 45 percent of the upper classmen do not know what will become of them when they finish school. Ninety

percent of the under class women do not know what occupation will be theirs, and 80 percent of the upper class women have no idea of their future occupation. Half of the women are willing, according to the answers to the questionnaires, to marry a man having an income of \$2,500. On an average, only one girl in seven demands an income of more than \$5,000. Two hundred and fifty man-haters were unearthed by the questionnaire, but the men themselves appeared more favorable toward marriage. Ninety-six percent of the sorority girls dance, while only two-thirds of the unorganized women attend dances. Less than half of the university men smoke, and the majority of students signified a desire to live in a big city, according to the questionnaire.

Women in Office.

(Hugo News)
There should be no gloating on the part of men who opposed woman suffrage over the fact that an entire set of women officers have resigned their positions in a Michigan town, giving as their reason that they could not earn their salaries.

We like to think of women as superior to men. Maeterlinck asserts that woman is a finer clay than man; that a little more of the spark of divinity has been given her than a man may ever possess. Any man who has a good mother or wife will agree with him.

In this case we are disposed to think that these women who have resigned are just a bit more honest than men. There are thousands of men in office who, if they were honest, would resign from office for the same reason. We believe that this unqualified honesty on the part of Michigan women in evidence of the fact that they possess superior qualification for office holding, that of honesty.

Many men in office, if they do not follow the example of these women by offering their resignations, at least should adopt a policy of more self examination. Inefficient men in any line of work should become humble under the example of those women.

WOMAN COULD NOT WORK

Made Strong and Well by Lydia E. Pinkham's Vegetable Compound

St. Paul, Minn.—"I took Lydia E. Pinkham's Vegetable Compound for a tired, worn-out feeling and painful periods. I used to get up with a pain in my head and pains in my lower parts and back. Often I was not able to do my work. I read in your little book about Lydia E. Pinkham's Vegetable Compound and I have taken it. I feel so well, and not a pain in my back now. I recommend your medicine and you can use this letter as a testimonial."—Mrs. PHIL. MASER, 801 Winlow St., St. Paul, Minn.

Just another case where a woman found relief by taking Lydia E. Pinkham's Vegetable Compound. Many times these tired, worn-out feelings and pains about the body are from troubles only women have. The Vegetable Compound is especially adapted for just this condition. The good results are noted by the disagreeable symptoms passing away—one after another.

Lydia E. Pinkham's Vegetable Compound is a Woman's Medicine for Women's Ailments. Always reliable.

SCHOOL BOARDS OPEN MEETING HERE TODAY

About 50 members of school boards in the county went into session this afternoon in the office of County Superintendent A. Floyd, for their annual meeting. A scheduled program of speeches started shortly after 1 o'clock and was due to continue well into the afternoon. Several men listed to appear on the program were reported absent.

MANAGER SEEKS NAME FOR NEW BABY CAMEL

"Honest Bill" Newton has offered a pass to all his shows as a prize to the school child in Ada who suggests the most appropriate name for a baby camel which appeared on the circus lot this morning.

Several new animals have been added to the Honest Bill menagerie. Two Samarian black leopards have just come in from Samaria. Two Bengal tigers from northern Africa and one spotted leopard from the same continent are also in the cages, ready for the long journey this spring and summer.

MacNider Makes No Mention of Newest Scheme For Bonus

PEORIA, Ill., Mar. 4.—Hanford MacNider, national commander of the American Legion, in an address here last night avoided all reference to the new \$50 bonus plan. In his address he said:

"The administration and congress do not feel like they can find the money to help ex-service men, but they do feel like they can find the money to fulfill war contracts which amount to billions of dollars."

In an interview following his address the commander was asked what he thought of the new bonus plan but he refused to comment.

Fair Weather Coming.

WASHINGTON, Mar. 4.—Weather predictions for the week beginning Monday are:

Upper Mississippi and Lower Missouri Valleys: Generally fair except for unsettled and probably local rains or snows about Tuesday warmer at the beginning of the week, colder after Tuesday.

TUPELO.

During the storm this community has been almost shut off from the rest of the world, but warm weather is appearing at last. This freeze and snow should be a great benefit to the farmer.

The motion pictures at the auditorium last Saturday night was a decided success, although the weather was bad and only a small crowd present. "Hats off," a patriotic picture was enjoyed by every one. Mr. Garrison expects to provide a good motion picture program for the community once every week for educational and recreational purposes. This is a good move as the community needs more wholesome and elevating entertainment than we now have.

Miss Mattie Sue Minnier resumed her work in the high school Monday, after four days illness.

A good grade of coal is now being supplied by a mine about six miles from Tupelo. If the supply continues a good deal of the coal consumed here will be obtained there.

TAXPAYERS SEE A HARD BATTLE

(Continued from Page One)
bed. This contract was let to Yates & Gallimore, about two years ago, for the sum of approximately \$47,000 with the Southern Surety Co., as their bondsmen.

"We are informed that this entire sum has been expended and that Yates & Gallimore have brought suit against the city for an additional sum, of approximately \$1,800 and that it will take about \$20,000 to complete the plant.

"We can not quite understand why this amount of money has been spent and the plant incomplete and so far as we have learning, there has been no effort made to collect from the bondsmen or force them to complete the plant.

"It seems but reasonable to us that if the Southern Surety Co., as bondsmen on the Tolbert contract could be forced to complete the first unit, that the same company, as bondsmen for Yates & Gallimore, should be forced to complete the second unit or at least that there should be some effort made to complete the work and relieve the present unsanitary condition.

"In conclusion we will say that it is our opinion that the Imhoff system of handling sewage, is one of the best systems known and we recommend that the first unit constructed be put in working order and that the second unit be completed and that they receive the proper care and attention.

"Respectfully submitted: E. S. Collins, E. L. Ultrchey, L. R. Clark, committee."

Not Personal Attack

After the report had been read and Mayor Gary Kitchens had answered questions concerning the alleged conditions, a member of the committee explained that no attempt was being made to attack city officials but rather to point out a line of actions "which will be for the benefit of taxpayers."

District Judge J. W. Bolen answered an attack made upon him concerning the expenditure of \$100,000 for the federal-county highway, Ada to Allen, inviting the league to appoint a committee to investigate his attitude and official record in reference to taxes conservation.

A report was also rendered by E. E. Estell, chairman of the committee appointed to investigate the city water lines and cement reservoir. This group was instructed to continued its investigations. The committee on sewage disposal plant was also continued and requested to look into the employment of an engineer to assist them in their probe.

Attention Ladies!
I am making a house to house canvass. If I have not yet been to your house, wait until you see my card, before deciding for whom you will vote.

JOE McELREATH,
Candidate for Commissioner of
Public Works and Property, City
of Ada. 3-11-1td*

NOTICE ELKS
Nomination of Officers Monday
night, March 13. Who do you want
for the next year? Everybody at-
tend.

J. T. ROFF, Junior E. R.
H. CLAUDE PITT, Secretary
Recommending E. W. Walker.

This letter is to certify that E.
W. Walker of Ada, Oklahoma, was
in our employ for about fifteen
years, ending in 1920, as foreman
in charge of various pieces of work
in building construction.
He was efficient, industrious and
honest. His services were very sat-
isfactory and we are glad to recom-
mend him.

Respectfully,
JARRETT CONSTRUCTION CO.
J. H. Jarrett, President. 3-9-3t

INDIGESTION

Busy Public Official Says The-
ford's Black-Draught Helps Him
Keep Physically Fit.

Clay City, Ky.—"I have been in
business here for twenty-one years;
am also corner, riding the Kentucky
hills and hollows in all kinds of
weather and under all kinds of con-
ditions," says Mr. Sam T. Carr, of this
place. "To be able to do this, I must
keep physically fit, and Theford's
Black-Draught is my stand-by.
"These trips used to give me head-
aches, and that, I found, came from
hurried meals or from constipation.
"I was convinced that Black-Draught
was good, so now I use it, and it gives
perfect satisfaction. It acts on the
liver, relieves indigestion, and certain-
ly is splendid. I am never without it."
When you have a feeling of discom-
fort after meals, causing a bloating
sensation, headache, bad breath, and
similar common symptoms, try taking
a pinch of Black-Draught after meals—
a pinch of the dry powder, washed
down with a swallow of water. This
has been found to assist the stomach
and liver to carry on their normal
work, and helps prevent, or relieve,
constipation.
Your druggist can supply you with
this well-known, purely vegetable liver
medicine. Insist upon Theford's, the
original and only genuine Black-
Draught liver medicine. NC-137a

P. H. DEAL ENTERS THE CITY CAMPAIGN

The News is authorized to an-
nounce P. H. Deal as a candidate
for the office of Commissioner of
Public Works and Property, subject
to the action of the city primary,
March 21. Mr. Deal will have a
statement in the News Monday.

The candidate held this office for
one term, his service ending two
years ago. He started much of the
constructive work and is anxious to
continue his services along this
line.

In The Oil Fields

It is reported that one of the most
important deals ever consummated
in the Pontotoc County oil fields
has been tentatively closed. Nei-
ther the names of the contracting
parties nor the terms of the agree-
ment have yet been announced. It is
understood that several technicalities
have not been worked out, and all
information as to the terms or work-
ing of these technicalities.

This much is certain, if the re-
ports given to the writer are to be
relied upon. The deal means that
considerable drilling will be started
here within the next few weeks, the
exact locations not having as yet
been determined. It is believed that
not fewer than a half dozen wells
will be started as soon as all details
can be arranged and material put
on the grounds. Others will follow
as the season advances.

Acres in several segregated sec-
tion is being taken up by the large
companies. Most of this acreage is
obtained on drilling contracts. While
some of these blocks are in the
northwest territory, interest is by
no means confined to this section of
the county.

LEHIGH NEWS

The Methodists have a fine new
church building, a resident pastor,
and a revival meeting in progress.
Good attendance and great interest
is reported.

The saddest event to occur in
Lehigh in recent years is the death
of Cecil Yates, caused by the ac-
cidental discharge of a .22 calibre
rifle in the hands of a friend while
hunting rabbits. Many were unable
to get into the Baptist church on
March 5. Rev. McClung of Atoka,
preached the funeral services. Many
from distant places were present,
including Julian Bell and Clement
Besingue of McAlester and many
from Coalgate. Cecil leaves a wid-
owed mother, two brothers and three
sisters, including Mrs. Bernard Har-
ley. He was twenty years of age.
Death occurred at the Wesley Hos-
pital, Oklahoma City, where he was
taken immediately after the acci-
dent in effort to save his life.

A big box supper was put on at
the Baptist church Friday night. It
was given by the High school jun-
iors.

In the basketball tournament
held at Ada, Lehigh lost to Okemah,
but on the whole they feel satis-
fied with the season, having won
seven out of nine games. Baseball
and track will now be in vogue.

On March 25 a large class of
young men, including four or five
from Lehigh, and several from Coal-
gate and Tupelo, and fifteen from
Atoka, are scheduled for a trip to
the Masonic Temple at McAlester
where they will be initiated into the
De Molay mysteries.

The Presbytery of Argmore district
meets in Lehigh the first week in
April.

HOOVER WILL REMAIN IN HARDING CABINET

WASHINGTON, Mar. 11.—De-
claring that President Harding
"strongly expressed the wish" that
he remain in the cabinet, Secretary
Hoover today informed Mayor Ham-
pton Moore of Philadelphia he could
not accept the director-generalship
of the Sesqui-Centennial exposition
to be held in Philadelphia in 1926.

"Once a Member Always a Member"
What? Loyal Daughters class Chris-
tian Sunday School.

Where? Criswell-Myers chapel.

When? 9:30 Sunday morning.

Who? Young women you know.

Teacher? Mrs. A. Linscheid.

3-11-1t

The News print shop has just de-
livered a big job of printing to
an Oklahoma City firm, it being
one of many such jobs handled
within the last few months. The
work was done in competition, both
in price and quality, with the shops
in Oklahoma City and other places
in the state. It simply shows that
Ada takes a back seat on nothing,
and that as a print town she is not
only in the front, but is actually up
on the platform.

Farmers' Column

By Byron Norrell

It is nearly time to bed out po-
tato seed and here is a pointer
from Professor Mooring of the A.
and M. college on this subject. If
any reader of the News has found
out anything better adapted to this
county I shall be glad to get the
benefit of his experiences for our
readers. Professor Mooring says:

The bulk of the sweet potatoes
are bedded in Oklahoma from March
15 to April 1. This means we should
look around for good seed and begin
to get our hot bed ready.

Try to secure seed, even at an
increased price from disease free
seed and from seed raised from vine
cutting preferably. The two principal
diseases to be on the lookout for in
sweet potatoes are (1) black rot
and (2) stem rot (wilt or yellow
blight). Each of these diseases is
fairly well distributed over Okla-
homa.

Black Rot.

This disease attacks the base of
the plants and tubers. At first black
rot in the tubers appear as small
roundish sunken spots, dark in
color. Then spots may enlarge until
the entire potato may be covered.
The surface of the diseased portion
has a somewhat metallic luster and
just beneath a greenish color. An
affected portion of the potato has
a bitter taste. This disease is trans-
mitted to the slips in the hotbed
and from the slips to the soil and
tubers produced. Examine carefully
your seed potatoes and discard all
tubers affected with black rot.

Stem Rot (Wilt or Yellow Blight)

This disease affects both the plant
and tuber. An affected plant may
live through the growing season or
through a large portion of the
season and produce some diseased
potatoes. The small potatoes are
seldom commonly used for seed and
since potatoes affected with this
disease do not show any external
signs we are very apt to bed seed
with stem rot or wilt. An affected
potato will show a darkened or
black ring just beneath the skin
when the potato is cut into.

Disinfect the seed potatoes by
soaking them for 15 minutes in a
solution of 1 ounce of corrosive
sublimite to 8 gallons of water. Use
only wooden vessels. Rinse the seed
and dry in the sun. Do not use this
solution more than three times with-
out adding some more corrosive
sublimite to strengthen the solution.
The treatment will not kill the dis-
ease in the potatoes but merely the
spores (seed) of the disease on the
outside. This solution is poison, so
keep away from children and ani-
mals.

Bedding Soil.

Always bed your potatoes in a
new soil that is one which has not
been used for bedding purposes pre-
viously. Disinfect your hotbed be-
fore placing the manure, soil and
potatoes.

It is said that where there is a
will there is a way. I remember read-
ing three or four years ago of an
Arkansas boy who wanted to join
the corn club. His father objected
and refused to let him have a team.
The boy was not to be turned from
his purpose, however, and with a
team of goats made a much better
crop on his acre than did his father
on any acre in his field. The boy
stayed on the job and made the
most of the resources at hand.

Here is a Garvin county boy who
made good raising corn last year.
The following item was taken from
the Pauls Valley Democrat:
Fourteen year old Noble Emberlin
of the Katie community was award-
ed a \$70.00 riding cultivator by the
Rock Island Plow company of Rock
Island, Ill., as a prize for having
produced the best acre of corn in
the state grown by the boys' club
member.

A. T. Burge, the Garvin county
agent, has many boys in the county
interested through his boys' club
organization in the growing of better
and profit-yielding farm products.

The prize acre which won the
cultivator for Noble Emberlin pro-
duced seventy-seven and one-third
bushels. The corn was grown in the
latest improved manner, the rows
being alternated with peanuts.

The club boys and girls of Hughes
county are writing a number of
letters for the papers about their
work. Some tell of the work of
their clubs and others tell of how
they cultivated various crops suc-
cessfully last year. I wish the boys
and girls of Pontotoc county would
follow this plan. It is real informa-

BULLETINS SENT OUT ABOUT MEET

Eighteenth Annual Meet at
Norman to Draw Most of
State's High Schools.

NORMAN, March 11.—(Special) Plans have been completed and bulletins are being sent out for the eighteenth annual inter-scholastic track meet to be held here April 27, 28 and 29, according to Professor F. G. Tappan, director of the school of electrical engineering, who is chairman of the meet committee.

The meet will be carried out on plans similar to those used last year. The most important change, Tappan said, is the addition of a third member to the committee of directors in charge of the meet. Coach Bennie Owen will again have charge of athletic events. Mrs. Bee M. Barry, instructor in the fine arts department, is in charge of the fine arts events. Last year all non-athletic events were under one director, but this arrangement threw too much work on one person and it was thought advisable to make a division.

Most of the minor changes have to do with the number of contests in some divisions. There were only two contests in Latin last year, but there will be four this year, first year Latin, Caesar, Cicero and Virgil. In stenography there will be three contests instead of two, typing, writing, shorthand dictation, and shorthand manual and sight reading. The schedule calls for only one event in English this year which will be in narrative writing. In the Domestic art laboratory the girls will make "hemmed" and "over hand" patches instead of fancy stitches, and the domestic science laboratory girls will make caramel custard instead of lemon pie.

Preliminaries in all athletic events will be held on Saturday morning and the finals in the afternoon. This arrangement will give the contestants more time between heats, and it is believed, will give them a better chance to make new records than was the case last year when both preliminaries and finals were held on the same afternoon.

The bulletin is out three weeks earlier this year than last year. It is larger and contains pictures of some of the winners in the meet last year as well as all rules and instructions for the meet this year. Professor Tappan who has charge of the bulletin as well as eligibility and entries, had some difficulty in obtaining cuts, as winners of last year were modest about having their pictures appear in the bulletin and it was necessary to write to many of them the third time before they replied.

Entry blanks will be sent to the high schools the first week in April and will be due the last week before the meet. There will be separate blanks for the fine arts, athletic, and curricular events, Tappan said. Some of the schools are already sending in request for information about the meet which indicates a greater interest than has been shown in previous years.

The State Agricultural and Mechanical college at Stillwater also holds an annual spring track meet and alternates with the university in holding the first meet. This year the university has the last week in April and the Aggies have the first week in May. The spring track meet has been an annual affair at the university for 18 years and a Stillwater for 14 years.

Iowa's New Stadium Would Furnish Seats For Crowd of 43,000

IOWA CITY, Mar. 11.—Plans for a new stadium on Iowa field at the University of Iowa which, when complete will seat 43,000 people, are now perfected, and the first steps in construction work under way.

Work to be completed by June 2, when the Western Conference track meet is to be held here, will provide a seating capacity of approximately 22,000 for the event.

The method of financing the project is unique. The board of control is financing the construction work with the proceeds of bond issues which will be redeemed by "the gate." The bonds were quickly absorbed and will be redeemed by the net proceeds of athletic contests.

The stadium, when completed, will be "U" shaped, costing nearly \$80,000. To complete the project would require approximately \$150,000, but this work will not be started until the athletic department has paid off its present indebtedness of \$100,000 incurred by the program now in execution.

LEE FOHL WILL HAVE SOMETHING TO SAY ABOUT THAT FLAG

The St. Louis Browns are set to give the pennant-winning Yankees, the ex-champion Indians and the threatening Washington team the battle of their lives this year and must be figured as a pennant possibility right now. The club lacked two

things last season. One was a dependable pitcher. The other was a good second baseman. The club paid 11 ball players to get Dave Danforth, star southpaw of the Columbus A. A. club. That plugs one hole. McManus, who proved his worth in the final

weeks of the last campaign, is set to play second better than Joe Gedeon ever thought of playing it. The team led the league in batting last year and hasn't lost any of its hitting strength in deals. So what's the

BICYCLE RACERS SNATCH TEN MEALS A DAY DURING STRENUOUS CONTESTS

CHICAGO, Ill., Mar. 11.—Men who eat as often as ten times daily and snatch their sleep in minutes, rather than hourly dozes, make up the coterie of athletes who ride in the six-day bicycle races in America, according to the trainers who handle these athletes.

Aside from the riding itself, eating is one of the best things the athletes do. Nor is their appetite during the six-day grind of the "pork and beans" variety. It is nothing if not epicurean, the riders displaying in some cases marked flashes of temperment in selecting articles of food.

Steaks are most popular among riders. Eggs in a variety of forms, chicken prepared in every conceivable manner and fruits are also eaten abundantly. Coffee is drunk in great quantities.

Some Easy to Satisfy. Some riders are satisfied with four or five meals daily, while others eat double that number. Trainers explain these lusty appetites are due to the constant tearing down of tissues of the riders' body, owing to the continued pedaling along the track. The body requires plenty of "ammunition" to enable the rider to drive his wheel along the wooden track for the 146 hours of the race.

As far as sleep is concerned, there are no Rip Van Winkles riding in the six-day races. The riders' sleep comes in periods that average three to four hours, are more often less than an hour and very rarely are stretched out to eight hours. For a rider to get an eight hour sleep, however, means that his partner must remain on the track, riding against the field, that long, and this is a feat not often attempted, requiring as it does pronounced endurance on the part of the rider.

There is no certainty about the length of the sleeping period. A rider may doze off when a "jam" is started on the track and he is aroused by his trainer and obliged to mount his wheel and resume pedaling to relieve his partner, who by reason of the "jam" which is nothing more than a sudden sprint, cannot continue the past race.

Strong Athletes Required. Men who have followed the six-day bike racing sport closely declare that the highest type of athlete is required for the event. For a rider in perfect physical trim, they declare, the long grind has no deterrent effect, and he finishes in as fresh condition as when he started, although naturally with many hours of sleep to make up. Strangely, the rider upon the completion for a six-day race, does not feel sleepy and it generally is several hours later before sleep comes. Drowsiness is noticeable, riders declare, for several days after a race.

Cleanliness is characteristic of the six-day rider. The few hours that he is able to take off the track are divided between sleep, baths, rub downs and shaving. Necessity for cleanliness is explained by the fact that the pores of the skin must be kept free from obstruction in order that the rider may keep as nearly perfect physically as possible.

Three things are essential for a bike rider in a long race, one trainer declared; physical fitness, cleanliness and courage. It takes grit and nerve to pedal around a ten lap track for a week, and no matter how perfect the body, a rider would be unable to continue without plenty of "righting heart."

CLEVELAND SCHOOLS WILL SANCTION BOXING

CLEVELAND, O., March 11.—Official sanction to boxing contests in school buildings and community centers has been given by the Cleveland Board of Education. The first shows were conducted in Brownell school and Gilbert school, two silver cups being awarded the winners of the main go.

There were seven bouts of three two-minute rounds each. Long before the first event the auditoriums were filled, many parents being in the auditorium.

TED LEWIS HAS CHANCE TO DEFEAT CARPENTIER

CLEVELAND, O., March 11.—Ted Lewis has a chance to beat Georges Carpentier if they meet this spring. Jack Britton, welterweight champion of the world, declared on a visit here recently.

"I beat Lewis by pounding his body," Britton said, "but Carpentier seldom davotes any attention to his opponent's stomach or ribs. He prefers to slam his men with straight rights and lefts to the head. You can't beat Ted that way. I ought to know, for I fought him twenty-one times and knocked him out but once."

Alumni Baseball To Be Resumed Soon on Ann Arbor Diamond

ANN ARBOR, Mich., March 11.—Resumption of alumni baseball games at the University of Michigan this year after a lapse since 1916, will bring together on June 16 and 17 the varsity and a nine composed entirely of former baseball captains at Michigan, if present plans are followed.

George Sisler, former Wolverine star now with the St. Louis Americans, and Johnny Lavan, shortstop of the St. Louis Cardinals will appear in the alumni lineup if they can break away from their clubs for a short period.

Others eligible for alumni service and who have played professional ball since their college days are Pete Van Boven, second baseman with the Grand Rapids team of the Central League, and Mike Knode, formerly with the St. Louis Cardinals but now retired from the game, and Eshenroth, former Cardinal catcher. Others who may be in the lineup or on hand as substitutes are Utley, pitcher; Hill, first base; MacQueen, third base; Mitchell, Sullivan and Bell, outfielders.

Alumni teams have yet to defeat a varsity nine, although games were played in 1912, 1913, 1914 and 1915.

The games this year will be played as features of the Commencement week activities.

From Texas comes a tale of a physician who has discovered what is called a "truth serum" which, when administered to a suspected criminal, paralyzes his imaginative faculties so that he can tell only facts and not thoughts, which are not true.

Let a News Want Ad get it.

MICHIGAN SQUAD WILL SEEK OPEN FIELD WORKOUT

ANN ARBOR, Mich., March 11.—As soon as Ferry Field is dry Michigan's varsity baseball squad will forsake the cage at Waterman gymnasium, where training has been given for more than a fortnight, and continue the rounding out process in the open.

Prospects this year are said by Coach Ray Fisher to be fully as good as in 1921, when the Wolverines placed second in the Big Ten race.

The squad has been cut to 35 men, with further pruning to come. Coach Fisher is confronted with a difficult task, as the team starts south April 7 for a series of nine games. Immediately upon their return the players will engage Illinois here April 22 in one of the most important games on the Michigan schedule.

All of last year's battery men are available this season. Ernest Vick, star catcher, is in form, as are several good substitutes in the receiving department. Dixon, live-alice and Schultz, all of the veteran pitchers, are practicing. Dixon, who carried the brunt of the work last year, is said by the coach to be better than ever. Liverance also has shown improvement, as has the third member of the regular pitching staff.

The infield presents a difficult problem, one that probably will not be definitely settled for some time. Bob Knode by fast work and heavy hitting appears to have won his way to the first base job, while Uteritz is gripping the second sack with a strangle hold. The trouble will come in filling positions at shortstop and third.

The outfield finds four veterans trying for regular positions. These are Klein, Shackleford, Roman and Roby.

Strenuous Road Trip For Oklahoma Tennis Men Now Guaranteed

NORMAN, March 11.—(Special) A new and larger schedule to take the place of the one previously announced has been arranged for the road trip of the Sooner tennis team next May, according to Ben A. Parks, tennis manager and captain.

The new schedule calls for nine matches away from home the first being a two day match with Washington university at St. Louis May 2 and 3, followed by Purdue May 4, Indiana May 5, Detroit May 6, Michigan May 8, Chicago May 10, Ames May 11, Drake May 12, and Kansas May 13.

Members of the Sooner team are: Ben K. Parks, Stillwater, captain and manager, George O'Connell, Chicago and Bus Harrington, Oklahoma City.

Five matches will be played on the home courts this spring. Parks said if arrangements are completed, Nebraska and Texas have agreed to play here but no dates have been set. Tulane, Arkansas and Kansas may play here but have not been definitely matched yet.

In China there are said to be sequeducts dating back to prehistoric times.

GIRLS MAY ENTER COUNTY CONTESTS

Co-ed Athletes to Appear in
Ball Throw, Dashes, Relay
and Volley Ball.

With about three weeks left until the county track and field meet, schools of this county are beginning to get contestants into shape. Literary entrants have already made good progress in their work, reports indicate. Athletic events have been delayed on account of the weather, but it is expected that some strong teams will be whipped into shape within the next few weeks.

Events in the high school section will be offered as follows:

One hundred yard dash, 220 yard dash, 440 yard dash, 120 high hurdles, 220 low hurdles, 12 pound shot put, discus, javelin, pole vault, running broad jump, high jump, 880 yard run, 1 mile relay race. The same events will be offered in the grade section with the mile race being eliminated and the eight pound shot put being substituted for the 12 pound shot.

Girl athletes will be allowed to enter in baseball throwing, 50-yard dash, 100 yard dash, running broad jump, 440 relay, and volley ball. Two volley ball teams may be entered from each school including boys and girls. All high schools will be permitted to enter baseball teams in the county tournament. Tennis players may also be entered, both boys and girls. Singles and doubles will be played. The team winning the highest number of points will be awarded the county cup.

A Smile a Day

Political Psalm.
Harding is now my shepherd;
and I am in want.

He maketh me to lie down on
the park benches; he leadeth
me beside the free soup houses.

He restoreth my doubt in the
republican party; he leadeth me
in the paths of destruction for
his party's sake.

Ye though I walk through
the valley of the shadow of
starvation, I do fear evil, for
thou art against me, thy policies
and thy profiteers they frighten
me.

Thou preparest a reduction in
wages before me in the presence
of mine enemies; thou anointest
my income with taxes; my ex-
penses runneth over my income.

Surely, poverty and unemploy-
ment will follow me all the
days of this normalcy admin-
istration and I will dwell in a
rented house forever.—B.X.

Trials of a Manufacturer.
I have been held up, held down,
sandbagged, walked upon, sat upon,
flattened out, and squeezed; first
by the U. S. Government, for the
Federal War Tax, Capital Stock Tax,
Liberty Loan Bonds, Thrift Stamps,
Excess Profits Tax, Auto Tax, and
Merchant's License, and by every
society and organization that the
inventive mind of man can suggest
to extract what I may or may not
possess. From the Society of St.
John the Baptist, the G. A. R., the
K. C., the Human Relief, the Navy
League, the Red Cross, Black Cross,
Purple Cross, and Double Cross,
Children's Home, the Dorcas So-
ciety, the Y. M. C. A., the Boy
Scouts, the Jewish Relief, the Bel-
gian Relief, and every hospital in
town.

The Government has so governed
my business that I do not know who
owns it. I am inspected, suspected,
examined, informed, required, and
recommended, so I do not know who
I am, where I am, or supposed to
be in inexhaustible supply of money
for every known need, I will not
sell all I have and go out and beg,
borrow or steal money to give away.
I have been cussed, discussed, boy-
cotted, talk to, talked about, lied
to, lied about, held up, robbed, and
nearly ruined. And the only reason
I am clinging to life is to see what
in the hell is coming next.

He Wasn't Racing.
"You're mistaken, officer," said
the motorist. "I wasn't racing. But,
say, I passed a couple of fellows
who were."—Boston Transcript.

All Depended.
"My dear," asked Blackstone,
fishing for a compliment, "what
would you do if I should leave
you?" "How much?" asked Mrs.
Blackstone, absent-minded.—Amer-
ican Legion Weekly.

To Insure Silence.
Wife (during spat) My dear
Henry, don't harbor the idea that
I am ignorant. I know a good deal
more than I care to tell.
Hub—I wish my dear that you'd
fill up on that sort of knowledge.
—Boston Transcript.

Old Friends are Best

The Best Outdoor Overshoe —and why!

That is a strong statement to make. Let's see
if it will hold water.

The Kattle King sole is extra heavy, of tough
tire tread stock, and gives exceptionally long
wear under the hardest usage. The durable all-
rubber uppers are backed by a layer of rubber-
ized cloth, another layer of rubber coated cloth,
and finally a heavy brown floor lining which
extends clear to the sole. This means warmth
as well as wear. There are ample reinforce-
ments wherever a strain comes, and all is joined
together to stay by the Hood Pressure Process.

So much for long wearing qualities—which
means economy. The Kattle King is easily
cleaned and retains no odors. It sheds water—
feet just as dry at night as when starting out
in the morning. Uppers do not freeze or crack.
The Kattle King is comfortable to wear. There
are other points, but these are the big reasons
why we honestly believe the Kattle King is
the best outdoor overshoe.

Slow Children Problem for Parents

Underlying Reason Can be Found with Study

Every mother who studies the problem of her backward child
will sooner or later discover that there is an underlying reason.
More than once this reason may be put down to lack of interest in
the study attempted.

EYE STRAIN

or excessive innervation of the eye
muscles depletes the nerve centers.
It also gives rise to brain irritation
of various degrees—dispositions
are altered by it, character is fore-
bly changed; mental faculties are
impelled into channels of work that
are anomalous.

These conditions may force a man
to appear to the world an entirely
different character from what he otherwise would have been. So,
in time these disturbing conditions can be corrected, we may expect
to see favorable changes in the physical, mental and moral parts
of the individual.

The defect of the child's eye-sight are different from the adult's
and must be treated in an entirely different manner.

We have taken special treatises on children's eyes.
Bring them to us for free examination while the health crusade
is on.

Church News

First Baptist Church.

Our Sunday school meets at 9:45 with Mr. J. A. Riddling as general superintendent. Our report for last year shows that he had a total attendance of 23,688 which is nearly three times the population of Ada. We had an average attendance for the year of 478. Our total Sunday school collections amounted to \$1261.29. We are greatly encouraged over this report. We are exceedingly anxious to make this next year even better than the last. Let's go above five hundred tomorrow again. We hope to see every member of the Sunday school present.

The Men's Bible Class will meet at the McSwain theatre at 9:30 with Dr. Laird presiding and Mr. Ellison teaching the class. It will be our joy to have every man who is not already attending Sunday school to be with us.

The pastor will preach the eleventh sermon in the series on Baptist beliefs at the eleven o'clock hour when the subject will be "The Form of Government of a New Testament Church." We are hoping to have the usual splendid congregation present.

The Junior B. Y. P. U. will meet at 6:15. We have succeeded in getting Mr. and Mrs. O. F. Davidson to take charge of the little folks and we believe they will handle this organization in a fine way.

The Intermediate B. Y. P. U. will meet at 6:15 with Mr. and Mrs. Tom Fullerton in charge.

The Blue and Gold B. Y. P. U. will meet at 6:15. Mr. and Mrs. N. W. Pitts will meet with Miss Alene Thomas is president.

Senior B. Y. P. U. No. 1, will meet at 6:15. Mr. Bernard Howard is president.

The pastor will preach an evangelistic sermon at the evening hour and a call will be made for decisions to Christ. We had 204 additions to the church during the year 1921 and more than half of these were by baptism. Our hearts have been made to rejoice time and again because we have seen so many people being saved. That is our supreme business.

At the close of the service Sunday evening we will administer the ordinance of baptism.

CLYDE CALHOUN MORRIS, Pastor.

Christian Church.

9:45 a. m. Bible school. Classes for all. Men's class meets at the Chamber of Commerce rooms.

11:00 a. m. morning worship. Sermon: "The Warp and Woof of Paul's Life."

6:00 p. m. Junior and Intermediate Christian Endeavor Society meetings.

6:00 p. m. Senior Endeavor Society meeting.

7:30 p. m. Evening Service. Sermon: "The Tower of Babel."

Didn't you make a New Year's resolve that you were going to be more regular in attendance at the Bible school and church services this year? A good resolve. Keep it up. If you didn't make such a resolve we want you to come right along anyway. We always try to make you glad you came. We invite all to come.

H. M. WOODS, Pastor.

Methodist Church.

Sunday school at 9:45. Prof. R. S. Newcomb, Supt.

Preaching at 11 a. m. by the pastor.

Mrs. Clint Ballard will sing "Penitence," by Francis Martin.

Junior missionary society meets at 3 p. m.

The Epworth League meets at 6:30.

Preaching at 7:30 by the pastor. The choir will sing "In Heavenly Love Abiding," by Holden.

A cordial invitation is extended to all who have no church home to worship with us.

J. H. BALL, Pastor.

Young People's Meeting, Church of Christ.

Leader—Denton Floyd. Prayer—Turner Garwood.

How do we get faith?—Robert Moore.

Is faith necessary to salvation?—Leamon Wallace.

Will faith alone save?—Judson West.

What of disbelievers, those without faith?—Otis Floyd.

Quartet.

Whose prayer will God not hear?—Cletus Watson.

For what should the sinner pray?—Joy Pegg.

Review and summary—Bro. Moore.

Young People's meeting 6:30 p. m.

Bible study every Wednesday night.

You are cordially invited to attend these services.

First Baptist W. M. S.

The recently revised districts of the Woman's Missionary Society will meet as follows next Monday afternoon at 3 o'clock to perfect district organizations: District No. 1, 21st street and all streets south, will meet with Mrs. R. H. Couch and Mrs. R. E. L. Ford will act as temporary chairman.

District No. 2, 20th, 19th, 18th, and 17th streets, will meet with Mrs. J. A. Riddling and Mrs. Duncan will act as temporary chairman.

District 3, 16th and 15th streets will meet with Mrs. J. T. Emry, and Mrs. Emry will act as temporary chairman.

District 4, 14th, 13th, and 12th streets, will meet with Mrs. R. A. Herndon, with Mrs. Herndon as temporary chairman.

District 5, Main Street and all streets north, will meet with Mrs. S. H. Mount, with Mrs. Mount as temporary chairman.

District 6, Young Matrons west of Katy tracks, will meet with Mrs.

Fannie Miller, 512 West Main, with Mrs. Tom Fullerton as temporary chairman.

District 7, Young Matrons east of Katy tracks, will meet with Mrs. W. J. King, 703 east 12th, with Mrs. N. W. Pitts as temporary chairman.

All ladies who live on the avenues are asked to meet with the district nearest them. Let's make Monday the banner day in attendance.

Mrs. W. J. Hughes, Pres.

C. E. Program, Presbyterian Church.

Leader—Jeanette Bobbitt.

Topic—Opportunities. Scripture Gen. 41:14-40.

Prayer.

What are some daily opportunities often overlooked?—Irving Choate.

Why is prompt action important in connection with opportunities?—Jessie Cales.

Why does opportunity for salvation rightly claim first attention?—Don Evans.

What are some opportunities only to be had in youth?—Wilma Chilcutt.

Solo—Russell Boud.

What have we to do with the opportunities of others?—Bill Morrison.

Give from the Bible an instance sequence.—Miss Russell.

What may one get from a lost opportunity?—Earl McKendree.

Talk—Judge Wimlish.

Benediction.

Epworth League.

Song.

Subject: "Epworth Quarterly Night."

Hymn.

Scripture lesson.

Address by pastor, "The Value of Church Periodicals."

"The Epworth Era,"—Agent.

"The Special Features,"—Dollie Gay.

"The Value of Keeping in Touch With Other Chapters,"—Alice Gowing.

"What the Epworth Era Means to Me,"—Kathryn Taylor.

Why Should I Be in Every Home?—Burgess Steed.

Why Should Every League Member Subscribe for It?—Oleta Montgomery.

Business.

Song.

Benediction.

Missionary Society Meets.

The Woman's Missionary Society of the Christian church will meet with Mrs. C. A. Galbraith Monday afternoon at 2:30. All members are urged to attend.

MRS. M. A. WAITS, Sec'y.

MRS. E. S. WAGONER, Pres.

Presbyterian Church

The pastor will preach at both services Sunday, 11 a. m. and 7 p. m.

The congregational meeting will be held immediately following the morning service.

Sunday school 9:45 a. m.

Intermediate C. E. 9 a. m.

Senior C. E. 6 p. m.

Senior Woman's Auxiliary meets Monday 3 p. m. with Mrs. Wetherington.

Junior Woman's Auxiliary meets Monday 3 p. m. with Mrs. Allen Stanfield.

St. Luke's Episcopal Church.

First Sunday after the Epiphany. 7:30 Holy Communion.

9:45 Church school and Bible class.

11:00 morning prayer and sermon.

7:30 p. m. evening prayer and sermon.

The rector urges all his own people to come to the evening services and welcomes all visitors. The service will have plenty of music and we hope to make it reverent, inspiring and interesting to all who come.

RICHARD ALLEN HATCH, Rector.

Oak Ave. Baptist Church.

Last Sunday was a great day at Oak avenue church. All services were well attended and great interest manifested. At the close of the morning service a great number of people made new resolutions, and reconsecrated themselves to the Lord for more faithful and better service. We are looking for another great day next Sunday. Let all the members be faithful. Everybody is invited. We especially urge the young people to attend the morning service. Theme for morning service will be "A Determinate Decision." Evening theme, "Sin and Grace."

J. H. PAGE, Pastor.

Intermediate Endeavor Presbyterian Church.

Topic—Opportunities. Leader—Bartley Meadows.

Song.

Prayer.

Scripture 2 Cor. 6:1-2.—Ed Gwin.

Song.

What are some opportunities to be had in youth?—Jack Conn.

Tell the story of the following Bible examples of opportunities to witness for Christ:

(1) Paul and Lydia—Margaret Chilcutt.

(2) Paul and the Jailor—Acts 16—Stanley Dean.

(3) Philip and the Eunuch—Acts 8—Mary Patterson.

Tell of Bible examples of service:

(1) Good Samaritan—Luke 10—Ethel James Byrd.

(2) Jesus Washing Disciples Feet—John 13—Harrie Lee King.

Let each Endeavor be able to give an example of a opportunity for service in Ada.

HENRYETTA—Henryetta councilmen have just passed an ordinance restricting building and requiring permits to be taken out for any construction.

Farmers' Column

By Byron Norrell

Weigh Milk and Test It.

"Every owner of dairy cows should know if his cows are giving enough milk or butterfat to make a profit over the cost of feed," says A. C. Baer, professor of dairying at Oklahoma A. and M. College. "A scale to weigh the milk in the barn can be bought for \$4. It takes only a few minutes a day extra time to weigh the milk from each cow and write the weight on a milk sheet tacked up in the barn. Once a month a sample of milk can be tested. Any creamery, ice cream factory, or cream station will usually be glad to do this testing. Every school house can be equipped with a tester at very little expense, and the boys at school can do the testing."

"A profitable cow should produce 6,000 pounds of milk or 200 pounds of butterfat in 300 days. Are your cows all profitable? Why not find out? Is milking dairy cows a business proposition with you? If so, why not apply business methods?"

Peach Tree Borers

"You may think that, because your peach tree looks vigorous, there are no borers in the trunk near or just below the surface of the soil," warns D. C. Mooring, extension horticulturist at Oklahoma A. and M. College.

"Now is a good time to examine your trees and if borers are present as most likely they are remove them. Dig the soil away thus leaving a cavity around the base of the tree, for as a rule there will be an exudation of gum (jelly) from the trunk which will indicate the presence of borers. In most cases you can cut them out with a heavy sharp knife by following their tunnels. Because you do not find them at first, do not give up and conclude that they are not there. Where they have bored deeply into the wood a flexible wire may be used to gouge and kill them as indicated by bug juice on the end of the wire. Leave the cavity around the trees during the winter."

Why Not Moist Mash?

Poultry raisers and experts have had it back and forth for years concerning the merits and demerits of dry and wet mash as a feed for growing chickens. Just at the present time it seems that "the dries have it," for poultrymen generally—despite a few exceptions—hold up their hands in horror at "wet, sloppy mash."

But why can't we strike a middle ground and capture some of the merits of both wet and dry mash and eliminate, to some extent at least, their faults? Therefore, I plead the merits of both wet and dry mash and mean let us remember, however, that moist does not mean wet. Just moisten the mash until it will crumble, but not stick, or in other words have it about the consistency of the sub-surface of moist tillable soil.

The great merit of wet mash is that it will produce a quicker growth of the chicks than the dry mash. This same thing may be said of moist mash and at the same time the great demerit of wet mash—sloppy, unsanitary means of feeding—is eliminated; and best of all the chickens relish the touch of added moisture.

Why not moist mash?—M. F.

Pressure Cooker

"The steam pressure cooker is one of the modern conveniences that will soon pay for itself," says Mrs. Daisy M. Fraizer, district home demonstration agent, in a bulletin just published by the Extension Division of Oklahoma A. and M. College. "Cheaper cuts of meat, hard-to-cook cereals and vegetables can be cooked with the most satisfying results, the flavor and tenderness being equal to that of higher priced food cooked by ordinary methods."

"Many wholesome, highly nutritious foods, such as navy beans, hominy, corn meal mush, and meats, are not served regularly in many homes on account of the labor and amount of time required to cook them thoroughly. With a pressure cooker these foods can be made a part of the daily diet with a very small cost."

"Foods cooked in the pressure cooker require very little attention until ready to be taken out. Basting, turning, stirring and the continual adding of more liquid are not necessary as the food does not burn or dry out but remains moist, tender and juicy."

"There are a great many vegetables and meats which require approximately the same length of time for cooking. These can be cooked at the same time without intermingling of flavors."

"By placing the different foods in small pans, cans or jars, the steam can circulate freely through the foods. A complete dinner can be prepared in a cooker at one time."

BLACK ROCK

Our school reopened Monday with a good attendance, everyone reported a good time during Holidays.

Mr. and Mrs. C. W. Harmon and family visited their daughter, Mrs. John Cospen at Steedman Sunday.

Mr. and Mrs. Dru Patterson visited with G. M. Davis Sunday.

Gracie and Alice Gill visited Bulah and Myrtle Metcalf Sunday.

Bernice Kidwell visited with relatives in Allen last week.

Miss Ruby Palmer visited Miss Artie Edwards of Steedman Sunday.

Mr. and Mrs. J. A. Hawkins and their sons Marion and George and their families all took dinner with Mr. and Mrs. Ellis Keyton Sunday.

Quite a few of our farmers have begun to prepare their land for this year's crop.

The first trip on the new Paris to Warsaw air service took ten hours, as compared with sixty hours for the journey by train.

WEAK; RUN-DOWN

Carolina Lady Got So She Could Just Drag—Cardui Built Me Up," She Declares.

Kernersville, N. C.—In an interesting statement regarding Cardui, the Woman's Tonic, Mrs. Wesley Mabe, of near here, recently said: "I have known Cardui for years, but never knew its worth until a year or so ago. I was in a weakened, run-down condition. I became draggy—didn't eat or sleep to do any good; couldn't do anything without a great effort. I tried different remedies and medicines, yet I continued to drag."

"I decided to give Cardui a trial, and found it was just what I really needed. It made me feel much stronger soon after I began to use it. I began to eat more, and the nervous, weak feeling began to leave. Soon I was sleeping good."

"Cardui built me up as no other tonic ever did."

"I used Cardui with one daughter who was puny, felt bad and tired out all the time. It brought her right out, and soon she was as well as a girl could be. We think there is nothing like Cardui."

Do not allow yourself to become weak and run-down from womanly troubles. Take Cardui. You may find it just what you really need. For more than 40 years it has been used by thousands and thousands, and found just as Mrs. Mabe describes.

GRAND JURY WILL TAKE WEEK MORE HEPBURN STATES

(By the Associated Press)

OKMULGEE, Mar. 4.—County Attorney Hepburn said today that the grand jury investigating the failure of the Bank of Commerce would probably require a week longer for its work, barring further details in disposing of other criminal matters. He added that the jury would probably wait until it adjourned to make a report of its findings, but that even though it did not, indictments would not be made public until warrants are served on those against whom bills are returned.

The county attorney was indignant today over what he termed a "gross misrepresentation" published yesterday in which Sheriff Sowers of Okmulgee county was quoted as saying it would be unsafe for Judge H. R. Christopher, who left there after dismissing a grand jury investigating the failure of the bank, to return to the bench. The sheriff also said the statement was also without foundation, declaring that in a conference with Governor Robertson he had made just the contrary assertion.

Unless Judge Christopher returns by next Wednesday, the next term of the superior court will die for lack of a presiding judge, as did the later part of the last one, it was said by Hepburn.

SERVICE TONIGHT TO BE CUT SHORT

Christian Church Revival
Goes Forward With Good
Crowds In Attendance.

Tonight's meeting at the First Christian church will be limited to one hour, Rev. C. R. L. Vawter, revivalist, promised at the service last night.

Tomorrow, according to plans, will be a big day in the four week's meeting. Activities of the day will open with a big Sunday school at 9:30. It will be Decision Day in the Bible School. At the 11 o'clock service, Rev. Vawter's subject will be "The Frequency of the Communion" and "The Name of the Communion". Good crowds are attending.

Last night, the evangelist's theme was "What Must I Do to be Saved?" The speaker declared this question is not settled by what Campbell or any other good man has said, but by what the Lord has said. This question, he asserted, is asked six times in the New Testament. The first three times are duplications of the record of that question asked by the rich young ruler. The young man had kept the Ten Commandments admirably but Jesus showed him that would not suffice," Rev. Vawter said. "The Ten Commandments would not save under the old dispensation nor under the new dispensation for we are saved by the blood of Christ and Christ is not mentioned or implied in the Ten Commandments."

"As the rich young ruler did not follow Jesus, we do not have his example of what it means to follow Christ. We must go to the other records and learn the effect. In the next case, Acts 2:38 we hear the Holy Spirit answering with 'Repent and be baptized every one of you in the name of Jesus Christ.'"

Other instances in which the question is answered in the Bible were cited by the speaker.

OIL NEWS

Virgil E. Cottingham, young geological ace who has been given much credit for proving the Midwest pool in Okfuskee county, now said by the geological fraternity to be one of the most promising in Oklahoma, arrived in Ada yesterday to spend a few days visiting relatives.

Cottingham is a member of a crew of six men who have put Okfuskee county on the oil map of the Midcontinent field.

When Beverly A. Tatum, discoverer of the Midwest pool, wanted a young geologist who "knew more than he did about the pure science of the game" he went to Norman and consulted with heads of the Oklahoma Geological Survey. They recommended Virgil E. Cottingham, a graduate of the University of Oklahoma and then employed as assistant instructor of paleontology. He was president of the Petroleum Club, and had been recommended by the university for the chair of structural geology at Cornell University. After he joined Tatum he was offered and declined the chair of structural geology at the Pittsburgh School of Mines.

Cottingham and Tatum patiently and laboriously mapped the region, indicating the structures they thought worthy of being tested with a drill.

Of the young man he discovered, Tatum said: "In Cottingham I have always at my side a thoroughly trained and studious scientific geologist of very unusual ability, and knowing that the finding of oil depended upon the very simplest part of geology—the structure of only four kinds of rock—sandstone, limestone, shales and conglomerates—I was encouraged to begin my work."

One well of the Midwest pool was started last July. Pay sand was reached on February 9 at 3,124 feet. On this date the well made a 20-minute flow, filling a five and three-sixteenth inch flow line, according to report. The next flow was a heavy head of gas which broke the flow line. It has continued under strong head. There is now about 1,250 barrels of oil in storage at Okemah from the new Midwest pool.

Cottingham is well known here. He lived at Stonewall several years and then moved to Ada.

Notice of Sale.

I, B. H. Epperson, as trustee, will offer for sale, on the 7th day of March at 11 o'clock a. m., to the highest bidder, for cash, a stock of goods and fixtures. Stock consisting of racket goods estimated to be about \$2,000, located in the town of Allen, Pontotoc County Oklahoma, in what is known as the Gillum building.

B. H. EPPERSON, Trustee.

"MOLLUSC" TO BE NEXT

LYCEUM NUMBER HERE

The next lyceum number for the Teachers College will be a three-act comedy presented by the Redpath Lyceum Bureau, which is coming here next Wednesday night under the management of Charles Fleming. The cast will include four people. The play, known as "The Mollusc," was written by Hubert Henry Davies.

Those who have seen the play report it to be one of the best of its kind. This is the first complete comedy lyceum number to be brought here this year, according to Prof. R. E. Robinson, who is in charge of the local work.

Argentina is more than five times the size of Germany, and has approximately 8,500,000 inhabitants, according to best estimates.

Farmers' Column

By Byron Norrell

Friday afternoon, in company with Mr. Hill, Mrs. Duval, Prof. McCormick and Mrs. Norrell, I visited a club meeting of the Union Valley high school. About 35 young people are members of the club and they have the reputation of being good workers. At all events they always give a good account of themselves at township and county fairs and sometimes at the state fair.

A program on gardening had been prepared for this meeting but most of it was carried over in order to hear from the agents and visitors. Short talks were made by Grady Allen, Raymond Young and Spaulding Lowery, the first named being called on to make a report of his trip to Durant where he went on invitation of the district bankers convention, which gave the A. & M. scholarship which he won. The other two talked of gardening, particularly the soil and location needed for a good garden and the other on the marketing end of it. Mr. Hill gave them some pointers and urged them to be sure to begin early in preparing their exhibits for the fair next fall. Prof. McCormick and Mrs. Norrell also added a few words.

The officers of the club are Hiram Falter, president; Raymond Young, vice-president, and Lela Riddle, secretary.

The pupils of this school are also good singers. When we arrived they were having a song program and later when the club was called to order they sang some club songs in a highly creditable manner. One thing very much to the credit of the community is that they are not changing teachers very year or two. Prof. and Mrs. Jones have been there some eight or nine years and have had the shaping of the education of a whole generation of students and have always taken a deep interest in club work. Mr. and Mrs. Jones and Misses Mabel Jones and Mattie Carroll, as Mr. Jones, stated, are students as well as teachers, always entering East Central for a term between sessions of their own school. At present there are 14 in the high school grades.

Union Valley farmers are now marketing their crop of sweet potatoes. When in their community Friday three cars were being loaded at Trux switch. They still have potatoes to sell but will probably have them all disposed of in a short time, if the market is right. By shipping in acre lots they are always in a position to command the best price going.

Smith Bailey says he plans to plant Acala cotton this year. Last year he made as high as half a bale to the acre on the earliest he planted, which was about the middle of April and averaged about a quarter of a bale on all planted around this date and which he worked out early. On some more which he planted about May 10 he never got a pound. It was the bottom crop that made what he got on the early planting, it having matured before the weevils were numerous enough to destroy it. He is of the opinion that early planting and early cultivation is the only way to get ahead of the weevils.

Illinois Farms Are Under Water After Melting of the Snow

(By the Associated Press)

STERLING, Ill., Mar. 4.—City officials, after the investigation of the gorge which is growing between Erie and Hillsdale, 20 miles down stream from Sterling, have abandoned any attempt to dynamite it because of its length. Hundreds of acres of ground between Erie and Derpek are under water. The road between these two towns which is about a half mile from the stream, is inundated and several farmers have been forced to move their stock to neighboring farms.

The Mexican government will soon deed to the men who served under Francisco Villa, former revolutionist, approximately 15 acres of land each, in accordance with an agreement made with Villa on his surrender in July, 1920.

ITCHING BURNING RASH ON HEAD

Developed Into Eruptions. Hair
Lifeless and Dry. Cuticura Heals.

"A rash broke out on the top of my head which later developed into sore eruptions. The itching and burning caused me to scratch. My hair was lifeless and dry, and began to fall out. Some nights the irritation was so great that I lost sleep."

"The trouble lasted about two months. I read an advertisement for Cuticura Soap and Ointment and bought some and I was healed." (Signed) Mrs. Elanthe Stone, 420 Alvasia St., Henderson, Ky.

Clear the pores of impurities by daily use of Cuticura Soap and occasional touches of Cuticura Ointment as needed to soften, soothe and heal. They are ideal for the toilet, as is also Cuticura Talcum for perfuming.

Sample Each Free by Mail. Address: "Cuticura Laboratories, Dept. M., Malden 44, Mass." Sold everywhere. Keep the Ointment in the Talcum Box. Cuticura Soap shaves without soap.

INFIELD IS GONE FOR BADGER TEAM

Wisconsin Must Rebuild Its Entire Base Staff for Oncoming Season.

(By the Associated Press)
MADISON, Wis., Mar. 4.—Graduation and ineligibility will make it necessary for Coach Guy S. Loman, to rebuild the entire infield of the Wisconsin baseball team before it enters the 1922 Western Conference season. A team up to the standard of past years, but comparatively inexperienced, is expected by the Badgers.

With the loss of Davy at catch, Loman at second base, Farrington at short stop and Ruelger at third base, besides Williams, a veteran pitcher, Coach Loman is confronted with a problem in selecting new men.

The pitching staff will be built around F. G. Paddock, captain of the 1922 team and star twirler of last season. P. A. Hoffman and H. O. Christianson, of the 1921 squad also will be available for mound duty with Ashley Mills a promising candidate for the lot.

L. C. Barry, substitute catcher and outfielder of last season, is expected to do the back stopping for 1922, with Edmund Aschenbrenner and J. J. Prokop substitutes.

Hunting New Men.
The loss of Ruediger due to ineligibility will require that the third base position be filled by a new man. Ross F. Dugan, sophomore with high school experience is a likely candidate for the post.

At first base the team will have John Williams, regular on the 1921 squad. The second base position is in doubt, being about evenly contested by T. B. Foy and H. B. Piggett.

It is thought that A. C. Elliott, captain and outfielder on the 1921 team will be brought into shortstop this year. Otherwise H. R. Combacker is the probable selection for the place.

Two basketball men, Rollie Williams and Duke Ceaser will be available for the outfield as soon as their playing season is completed. The third place in the field will probably be filled by a last year's freshman, James Powell, or Ralph L. Sheridan.

The Badgers are to take a spring training trip this year for the first time, swinging down into Mississippi during the spring vacation in April. Three games are on the spring preparatory schedule.

Poor training weather has always handicapped the Wisconsin team, hampering practice so that the squad is relatively unprepared to enter the conference season. The spring trip will afford a means of overcoming this handicap.

Cage practice is being carried on daily with candidates for the squad training in field work. The batteries have been training since the first week in January.

TAYLOR MURDER PARALLELS THAT OF ELWELL, SPORTSMAN

Above, William Desmond Taylor and the entrance to the home in which he was mysteriously shot. Below, a sketch of Joseph B. Elwell and the entrance to his New York apartment in which he met death by an unknown hand.

The mysterious shooting of William Desmond Taylor, well-known movie director, in his bungalow in Los Angeles parallels in many ways the equally mysterious shooting of Joseph B. Elwell, millionaire New York sportsman and whist expert, June 11, 1920. Elwell was known as a man of mystery, liked by women. His body was found in his apartment one morning and the police, after a vain search, announced their belief that a woman committed the deed.

Big League Moguls

Clark Griffith, "The Old Fox"

Clark Griffith

By NORMAN E. BROWN

When the American league invaded Chicago in the beginning of its fight against the National league which finally resulted in the old circuit requesting a peace parley, Charley Comiskey headed the Chicago club. "Old Fox" Clark Griffith took the job of managing the team

and coaxing National league stars to join the new organization. His success as a siren and in managing that White Sox and later the New York club, when the American league forced its way into the eastern city, played an important part in the development of the organization.

Griffith is still one of the leading figures of the game. For the last two years he has been in the magnate class as the directing head of the Washington club.

Griffith remained in New York after helping establish the A. L. team there, until 1910, when he went to Cincinnati as manager, only to suffer the fate of half a dozen others who have heard Garry Herrmann's pleas. He remained there two seasons and then joined the Washington club as manager and stockholder.

Two years ago Griffith and William M. Richardson, a life-long friend, bought the greater part of the stock of the club and Griffith became president. It is said that the sale by President Minor and the board of directors was forced by public sentiment created when the then club officials raised the admission prices of the fans when the fans held a "Johnson" day to honor King Walter a few years ago. Griffith is the seventh president of the club, following a list of famous diamond personages in that role, including Jimmy McAleer, Jake Stahl, Joe Cantillon and Pat Donovan.

MONTREAL IN DOUBT AS TO FIRE'S RESULTS

MONTREAL, Canada, March 4.—City officials today awaited the cooling off of embers of the fire which last night destroyed the city hall, that they might open the big safes in the service department and ascertain whether the nine debentures worth \$5,000,000 and other valuable public documents had been damaged. Six firemen were injured.

50 MEN REPORT WHEN SOONERS OPEN BASEBALL

(By the Associated Press)
NORMAN, Mar. 4.—More than fifty men reported for the first official workout of the University of Oklahoma's baseball squad, and the practice period evidenced a wealth of material.

The baseball squad will be under the supervision of Elmer Ponder, a former O. U. pitcher, who plans on building a strong battery as the nucleus of the varsity team. Only one member of last year's pitching staff will be on the squad this year, but a number of promising men have reported for trial.

Chauncey Dolph, the veteran pitcher of last year who alternated with "Skippy" Davis in the box, will play his last season for Oklahoma this year, and is looked to as the mainstay of the Sooner pitching aggregation.

There are no veteran catchers back this year and Coach Ponder must look to the recruit material for players to stand on the receiving end. A number of candidates for the post have had high school experience.

The wolves of Russia are starving and are haunting the towns. American Relief Administration workers go armed to protect themselves from the animals.

MYTHICAL TEAMS SELECTED TODAY

Officials Name Outstanding Players in East Central District Tourney.

A committee composed of those who officiated in the East Central District Basketball tournament met this morning following the playing off of the semi-finals and selected those who in their opinion merited a position on the mythical quintets and sextets.

Their selections are as follows:
First Team—Stevens, Okemah; Harmon, Holdenville, forwards; Garrison, Okemah, center; Strickland, Stratford; Padgett, Holdenville, guards.

Second Team—Rotenberry, Stratford; Campbell, Hickory, forwards; Bolton, Holdenville, center; Cunningham, Ada; Bizzie, McComb, guards.
Honorable Mention—Potts C. Ada; Rayburn F. Ada; Roff F. Holdenville; Bug C. McComb; Givens F. Roff.

Girls.
First Team—Witherspoon, Holdenville; Kiker, Wewoka, forwards; Harrison, Ada, center; Frazier, Wewoka, 2nd center; Campbell, Holdenville, 2nd center; Deen, Weleetka; Second Team—Sloan, Ada; E. Johnson, Francis, forwards; Sexton, Holdenville, center; McLarthy, Holdenville, 2nd center; Deen, Weleetka; Brown, Ada, guards.

Honorable Mention—Echles F. Holdenville; Wood F. Holdenville; Baurum F. Sulphur; Tiget F. Wetumka; Thompson C. Wewoka; Lester C. Ada; Wade G. Sulphur; Kernek G. Holdenville, Sharp G. Francis.

Many other good players were mentioned, but due to various obstacles were not given a place on any of the teams. For the most part the sportsmanship during the meet has been of a high type, and all who have entered seem to have enjoyed it, whether they won or lost, especially when it was known that only one could win at the time they entered.

CANADIANS AND YANKS HELP OXFORD'S TEAMS

LONDON, Mar. 4.—Oxford's athletic advantage over Cambridge due to the participation of Rhodes scholars has again come up for discussion in university circles.

In this year's ice-hockey match Oxford played a team of Canadians with one exception—an American. This team scored 27 times (a world's record) without reply from Cambridge.

One writer states that in his opinion unless something is done to level up the teams, these inter-varsity contests will be forgone conclusions every year and robbed of all interest.

Let a News Want Ad get it.

Let a News Want Ad get it.

ADA BATTLES HER WAY INTO FINALS

Okemah Meets Local Team Tonight in Concluding Game of Tourney.

The most exciting phase of the entire East Central basketball tournament came this morning when four teams of boys met to decide who will play in the finals tonight. For the first time in history Ada boys are still in the fight and will get to mix it with Okemah tonight for district honors. They won this right by eliminating McComb last night, and Stratford this morning.

With a feeling of something near a feud the Ada-Stratford squads walked into the court this morning both determined to win. Ada boys got the best of a roughing match, which continued during the game despite efforts of the referee to stop it. Several players on both squads were put out. Ada won 27 to 19.

Holdenville is Out.
Holdenville boys and Okemah boys played the first game today. Holdenville had been showing up well during the entire tournament, but met their equal when they clashed with Okemah. Okemah won by a score of 27 to 22. Harmon won his place on the all-star by his work in the game, while Okemah men took advantage of an opportunity to win favor in the eyes of those who were to choose the all-star players.

Okemah and Ada boys play tonight at 7:30 for the district championship while Francis and Wewoka girls play for the championship. The Ada News cup is still doubtful as to which school will be able to claim it next year, while Coffman, Bobbitt & Sparks cup now held by Wewoka is considering the possibility of becoming permanent property of that school. The two games tonight will be the best of the entire tournament, according to the opinion of officials.

Lineup summary:

Holdenville-Okemah Game
Okemah (27) Pos. (22) Hold. Stevens F. Harmon F. Jones F. Roff F. Garrison C. Bolton C. McMahon G. Padgett C. Buck G. Loftis

Substitutions: Huser for Jones by Okemah. Field goals: Stevens 5, Harmon 6, Garrison 3, Bolton 2, Huser 2, Bolton 1, Jones 1, free goals, Huser 1, Garrison 1, Stevens 1, Roff 4, Fouts, Holdenville 3 personals, 4 technicals; Okemah 9 personals, 4 technicals.

Wray refereed for Okemah-Holdenville game and Newcomb called Ada-Stratford game.

Fight More Intense.

As the second preliminaries drew to a close, the fight became intensified. Teams were becoming more evenly matched and the stakes greater. All coaches were urging their squads on, many hoping to get at least to the semi-finals. The gymnasium has been crowded to overflowing and enthusiasm Friday was by far greater than any time previous.

The afternoon was started when the Ada boys completely swamped Wetumka 5 to 11, setting a new high score record. Incidentally this is the first time an Ada boys team ever went past the preliminaries in a district tournament.

Holdenville girls won another victory over Maud, 33 to 2. This put these girls to play in the semi-finals. Okemah boys won a easy victory over Lehigh 38 to 8, going through the second preliminaries to the semi-finals Saturday morning. Stratford boys eliminated Sulphur 36 to 23 in a fast game. Roff was next eliminated by Holdenville 48 to 18, which put the Holdenville squad in for the semi-finals.

Ada Defeats McComb.
After the hour taken for lunch, Weleetka was eliminated by Francis girls' 20 to 22. Since the time the Ada girls had played, no game was as interesting as this one. The most exciting battle came when Ada and McComb boys tangled. The final score was 20 to 18 for Ada, putting the locals in for the semi-finals Saturday. This game was probably the hottest contested of the tournament up to that time.

The last game of Friday night was between Holdenville and Wewoka girls. Wewoka won 15 to 14 and passed on for the final tilt this

31 SCHOOLS OUT OF RUNNING NOW FOR STATE HONOR

NORMAN, March 4.—(Special)—Thirty-one schools have been eliminated in class A of the Oklahoma High School Debating League, according to the incomplete returns that have been received at the University of Oklahoma, by Anniece Moussa, secretary of the league.

There are about 150 schools in the league divided into eight districts. A director is in charge of each district and debates will be held under his supervision until the district championship is determined. The district champions will debate here for the state championship during the interscholastic meet the last week in April. The question for all debates this year is, "Resolved, that the policy of the open shop should be adopted in the United States."

While complete returns have not been received the results from five districts are as follows:

District 1—Welch defeated Fairland; Pawhuska defeated Bartlesville; Dewey defeated Miami; Chelsea defeated Quapaw; Bristow defeated Claremore; Bigheart defeated Sand Springs; Copan defeated Collinsville; and Kiefer defeated Owasso.

District 2—Pawnee defeated Cleveland; Crescent defeated Marshall; Edmond defeated Luther; Jennings defeated Stillwater; Perry defeated Covington; Hunter defeated Garber; Watika defeated Waukomis; Deer Creek defeated Medford; and Newkirk defeated Ponca City.

District 3—Clinton defeated Custer City. This district is incomplete. District 4—Amber defeated Pocasset; Tuttle defeated Minco; Kingfisher defeated Hennessey; Lawton defeated Ringling; Carnegie defeated Anadarko; Watonga defeated Hydro; Yukon defeated El Reno; Walters defeated Devol; Comanche defeated Harlow; and Snyder defeated Gotebo.

District 8—Idabel defeated Ant-

lers; Kiowa defeated Calera; and Canadian defeated Krebs. The returns from the districts are still incomplete.

ROBERTSON BACK AT STATE CAPITOL TODAY

(By the Associated Press)
OKLAHOMA CITY, March 4.—Governor J. B. A. Robertson returned to his office at the state capitol early today from Okmulgee where he went yesterday to gain permission to appear before the grand jury investigating the failure of the Bank of Commerce of that city. Joe O'Brien, William Tilghman, former United States marshal, and J. D. Lydick, an Oklahoma City attorney who accompanied him, also returned.

Peck's Promotion Is Approved by Senate In Decision Today

WASHINGTON, March 4.—Promotion of Major Robert E. Peck, to be a lieutenant colonel opposed bitterly because of reported disparagements against the Kansas and Missouri national guards contingents of the A. E. F., finally was confirmed by the senate today after a plea by senators that he had been punished sufficiently by war department rebukes and by refusal of his first promotion last year.

DI ON FLOOD CONDITION STILL UNCHANGED TODAY

(By the Associated Press)
DIXON, Ill., Mar. 4.—Flood conditions were practically unchanged here this morning, despite a drop 7 inches in the stage of the water at the dam. The recession of waters has been above the Galena Avenue bridge, very little fall being noticeable in the western part of Dixon, which is under water. The ice still holds in all places where it has been gorged.

Let a News Want Ad get it.

With the Women of Today

By EDITH MORIARTY

Winifred Mason Huck wants to be given the chance to fill her father's unexpired term in congress and then she hopes to be elected as representative at large from Illinois. She is the daughter of the late Representative William E. Mason and she has already filed her petition as a candidate for congress in the republican primary to be held in April.

It is thought that she may also file as a candidate to complete her father's unexpired term.

Women to Meet in All Americas.
Women of the Americas interested in the importance of international friendship will meet next Columbus day, October 12, in the capitals of North, Central and South America.

The idea is the outgrowth of the Pan-American international committee of women by the Woman's auxiliary committee of the United States of the second Pan-American Scientific congress.

The call for the simultaneous conferences has been sent out by the auxiliary committee of which Mrs. Charles Evans Hughes is chairman. The United States section of the international committee is composed of Mrs. Robert Lansing, chairman; Mrs. William C. Gorgas, Mrs. Philip N. Moore, Mrs. Glen Levin Swiggett and Miss Grace Abbott. The programs are devised to show the contributions of women to the progress of their respective countries.

Women Who Merit Notice.
Miss Hilda Johnstone, who has been appointed to the chair of history in London University, has held the readership in history at that institution since 1912, and previously had been senior assistant lecturer in history at Manchester University.

Mrs. Judith Winsor Smith of Boston, for nearly fifty years a member of the New England Woman's club and now an honorary vice president of the organization, is claimed to be the oldest active club member in America. Mrs. Smith is nearing her 100th birthday anniversary.

Woman Lookout.
Miss Lorraine Lindsey of Centennial, Wyo., a former student at the

Winifred Mason Huck

University of Wyoming, recently entered upon her duties as observer upon the Medicine Bow peak, is lookout at the highest point occupied by a woman in the Medicine Bow National forest, if not in the Rocky mountains.

"Only" Women.
America's only woman bridge engineer is Dr. Lou Melton, an employee of the federal bureau of public roads.

Miss Pearl Cartmill, examiner of small loan agencies for the state of Illinois, is the only woman in the United States to hold such a position.

Miss Ivy Fuller of Manhattan, Kan., has been selected as director of the historical section of the American Legion, a newly created office with headquarters at Indianapolis. Miss Fuller was a war nurse and was the only woman delegate from Kansas at the recent convention of the legion at Kansas City.

The appointment of Belgium's first woman burgomaster, Mlle. Geignaght, who has been chosen to that office in a little village near Ypres has been confirmed by King Albert.

time on each side had scored a goal. When play was resumed, the pace was very hot and a forward of the En Avant team slapped the face of an opponent whom she was accused of fouling. The referee sent the aggressor from the field but her comrade sided with her and refused to continue the game. The referee gave the game in favor of the Femina Sports.

WOMAN PLAYER SLAPS OPPONENT; GAME ENDED

PARIS, Mar. 4.—The two leading female football clubs of Paris, the Femina Sports and the En Avant, were contesting the championship of the city on Saturday and at half

25 TEAMS WILL MEET AT WEWOKA DISTRICT CLASH

Between 20 and 25 teams are expected to participate in the annual eighth district basketball tournament for boys to be held next Friday and Saturday at Wewoka, according to C. D. Spangler, Wewoka principal, who is in Ada this week end with his girls team attending the East Central invitation tournament.

The eighth district extends south to Tishomingo, north to Sapulpa, west to Shawnee and east to Holdenville and Stuart. The winner of this meet will represent the eighth district at the annual state tournament at Norman March 17 and 18. Practically all expenses of teams attending the district tourney will be met by Wewoka, Spangler said. The town is giving \$300 to get the meet. This will be prorated to help pay railway expenses of teams. Players will be given free entertainment in Wewoka homes and will be furnished their breakfast. Walter Wray, Ada, and Ivan Grove, Shawnee, will referee the tournament.

Wewoka high school has a good court, Spangler said. It is 80 by 47 feet. Ada high school will send a team.

RUSSIAN ORPHANS ARRIVE TO ENTER U. S. HOMES

THE YOUNG LADY ACROSS THE WAY

The young lady across the way says she fears we can't expect lower taxes until we build our armaments on a strictly competitive basis.

Ontario, Canada, has paid \$164,000,000 in war service gratuities.

STOMACH TROUBLES

Indiana Lady Had Something Like Indigestion Until She Took Black-Draught, Then Got All Right.

Seymour, Ind.—"Some time ago I had a sick spell, something like indigestion," writes Mrs. Clara Peacock, of Route 6, this place. "I would get very sick at the stomach, and spit or vomit, especially in the mornings. Then I began the use of Theodor's Black-Draught, after I had tried other medicines. The Black-Draught relieved me more than anything that I took, and I got all right."

"I haven't found anything better than Black-Draught when suffering from trouble caused by constipation. It is easy and sure. Can be taken in small doses or large as the case calls for."

When you have sick stomach, indigestion, headache, constipation, or other disagreeable symptoms, take Black-Draught to help keep your system free from poison.

Theodor's Black-Draught is made from purely vegetable ingredients, acts in a gentle, natural way, and has no bad after-effects. It may be safely taken by young or old.

Get a package of Black-Draught today. Insist on the genuine Theodor's. At your druggist's. NO-143

4 STUDENTS TO GET LICENSES AS OPERATORS

NORMAN, Mar. 4.—(Special)—Four University of Oklahoma radio students will receive government licenses as a result of a speed test given the wireless operators in the school of electrical engineers, according to Prof. Otto W. Walker. James H. Cassin, Lawton; J. Burton Nelson, Norman; Ted Hodges Frederick, and Robert Greene, Sapulpa, were the quartet of Sooner students pronounced proficient in this test.

Cassin was the speediest sender with 20 words a minute which entitles him to a first grade commercial license when he passes the theory of radio test. Kelso came second with 15 words a minute while Hodges and Greene passes the test with 10 words a minute. The last three men will receive amateur second grade license.

The Sooner wireless students have radio-phones which enables them to listen in on wireless sympathy concerts sent out by the University.

Old Friends are Best

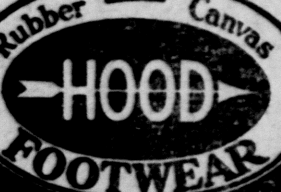

What Did I pay for them?
I've had them so long, I've forgotten

It's a good memory that a pair of HOOD Red Boots cannot outwear. And wear is in our opinion about the first consideration in selecting a boot. At least, other things being equal, the boot that wears the longest is the one that gives permanent satisfaction. Besides wear there is one other outstanding HOOD feature, and that is comfort. HOOD Boots have been made for twenty-five years, and we have never in that time ceased to improve them where improvement was possible. One result is that all reinforcements are placed with scientific accuracy—not slapped on indiscriminately—and this means extra wear without clumsy weight—or comfort at the end of a long day's work. Ask your dealer what he thinks of HOOD Boots—and look them over for yourself.

Three of Cleveland Men To Be Awarded Silver Loving Cups

Cleveland, Mar. 4.—Three Cleveland Indians who won silver cups offered by Edward Grasselli, one of Cleveland's most enthusiastic baseball fans, last season, will receive their rewards on the opening day of the American League. They are Larry Gardner, third baseman; William Wambgsang, second baseman, and George Uhle, pitcher. Gardner gets his trophy for driving in the most runs for any Cleveland player in 1921. He sent across 115. Joe Sewell, with 91, was second. Wambgsang wins a trophy for stealing the most bases with thirteen, Charley Jamieson, with eight, was a poor second. Grasselli offered a cup to the pitcher who going to bat at least 75 times, took down the best batting average. This went to Uhle, who batted .245 in ninety-four times at bat.

Church News

First Baptist Church.
Our Sunday school begins at 9:45 Mr. J. A. Riddling is the general superintendent. We hope to have over 500 or more present.

In the absence of the pastor who is attending the State B. Y. P. U. convention at Chickasha, Mr. J. H. Fisher, president of the State National bank at Shawnee, will speak at the morning and evening hours. At the morning hour he will speak on the subject "Trusteeship of Life" and at the evening hour on the subject "Fishers of Men." Mr. Fisher is one of our greatest laymen in this state and was formerly president of the Oklahoma Baptist Laymen's Convention.

He is a speaker of exceptional ability and is known as one of the best personal soul winners among the business men of the state. The Sunbeams will meet at 2:30 p. m. Mrs. Everett in charge. The B. Y. P. U. will all meet at 6:15. Let all the young people be present. You are cordially invited to all our services.
CLYDE CALHOUN MORRIS, Pastor.

Men's Bible Class.
The Men's Bible Class will meet at McSwain theatre at 9:30. Mr. Fisher, president of the State National Bank, Shawnee, will speak to the class for a few minutes. Mr. Ellison will teach the lesson. All men are cordially invited to be present.
F. R. LAIRD, President.
J. T. BRALY, Sec'y.

First Baptist Business Meetings.
The First Baptist church will have all its monthly business meetings next week as follows:
Workers and Teachers' Council on Monday evening at 7:30.
The regular monthly business meeting of the church will be held on Wednesday evening.
Please let every organization in the church have a report ready at that time.
C. C. MORRIS.

Methodist Church.
Sunday school at 9:45. Prof. R. S. Newcomb, Supt.
Preaching at 11 a. m. and 7:30 p. m. by the pastor.
Sacrament of the Lord's Supper at the morning hour.
Young people's missionary societies meet at 2:30 p. m.
Epworth League at 6:30.
Splendid music by the choir.
You are invited to worship with us.
J. H. BALL, Pastor.

Oak Avenue Baptist.
We are delighted to report that eight souls were saved as a result of the eight days meeting at Oak Avenue Baptist church. We had two services daily, the pastor doing the preaching. There were ten additions to the church in all. We give God the glory. All services as usual next Sunday. Everybody is invited. Strangers are made welcome.
Sunday school at 9:45 a. m.
B. Y. P. U. 6:45 p. m.
Preaching at 11 a. m. and 7:30 p. m.
Theme for morning service, "The Good Shepherd and His Sheep."
Theme for evening service, "The Darkness and the Earthquake at the Cross."
J. H. JAGE, Pastor.

Presbyterian Senior C. E. Consecration meeting.
Topic—Better Home Life.
Song service.
Scripture—II Samuel 6:1-12.
Prayer.
How should our homes help those outside our homes?—George Bowman.
What are some things that hinder happy home life?—Ora Ewing.
What makes a happy home?—Miss Russell.
What has the Bible to do with the making of a happy home?—Clarence Morrison.
Song.
What is the key to a happy home?—Eddie Mae Horn.
What is one element of an ideal home?—Catherine Wilenzick.
A Motto for a happy home—Thelma Roberts.
Song.
Benediction.

Presbyterian Church.
Mrs. S. I. Lindsay of St. Louis, representative of the Women's Board of Foreign Mission of the Presbyterian church, will make an address at the 11 o'clock hour. She will also meet with the Senior Christian Endeavors at 6:30 o'clock. Monday at 2 p. m. Mrs. Lindsay wishes to meet all the women of the congregation at the church for a conference. Please make it a point to be at this meeting Monday.
Sunday school at 9:45 a. m. Mr. Miles C. Grigsby, Supt.
All members of the congregation are urgently requested to attend the morning service at which Mrs. Lindsay is to make the address.

B. W. M. S.
The Missionary Society of the First Baptist church will meet Monday at 3 p. m. in regular monthly business session at the church.
Secretaries of circles are urged to bring or send their reports.
The society will also observe Tuesday, Wednesday, Thursday and Friday as prayer week for Home Missions. These meetings will begin at 3 p. m. each day and dismiss promptly at 4. An interesting program has been arranged.
Mrs. W. L. HUGHES, Pres.
MRS. L. A. ELLISON, Sec'y.

Asbury Methodist Church.
Sunday school at 9:45 a. m. Service at 11 a. m. and 7:30 p. m. Epworth League at 3 p. m. Prayer meeting every Friday evening at 7:30.
We had a good service at prayer meeting last night under the lead-

ership of Bro. Joe Jard. We are glad to announce that Bro. McBride has charge of the Sunday school. Everybody is invited to these services.
R. E. BROTHERS, Pastor.

Missionary Society of First Methodist Church.
Twenty-Four Thousand Missionaries in all foreign missionary work there are engaged 24,000 missionaries and 109,000 native preachers. At that, the entire expense last year was less than the cost of one first-class battleship. These have been founded in non-Christian lands 703 mission hospitals, and last year they treated 9,000,000 patients.

Rapid Progress in India.
Methodist leaders in Indian report that there are now in that country 175,000 believers awaiting baptism and admission into the Methodist Church. Inspired by the Methodist Centenary, Indian Methodists subscribed \$1,750,000 for the extension of the work.

Many Turned Away.
(J. S. Oxford, Kobe, Japan)
We had our entrance examinations of Palmore Institute on the night of September 7th. If possible, the situation was worse than last year. Every seat in the building was occupied by an applicant; the aisles were crowded with people standing, and the porch was crowded to the limit. I have become more or less hardened to such a sight, but it was almost heart-breaking to have to turn away young men who pleaded with tears in their eyes for admission.

The Women's Missionary society First Methodist church will meet in regular business session Monday, March 6, at three p. m. A good attendance is urged as we want the loving cup another year.—Superintendent Publicity.

Christian Church.
The revival meeting is on in full swing at the Christian church. Sunday will be decision day in the Bible school. All classes will meet at 9:30 a. m. Everybody out on time.
H. M. WOODS.

St. Luke's Episcopal Church
First Sunday in Lent.
Holy Communion—sermon, 11:00 a. m.
Church school, 9:45.
Confirmation instruction 4:00 p. m.
Singing prayer and sermon, 7:30. Week-day services.
Holy communion, Thursday, 10:30 a. m.
Evening service daily except Wednesday, 4:30 p. m.
Evening service and sermon, Wednesday, 7:30.—Richard Allen Hatch, Rector.

Auxiliary to Meet.
The Senior Woman's Auxiliary of the First Presbyterian church will meet Monday afternoon at 3 o'clock at the home of Mrs. C. V. Gowins, 716 East Main street.

Intermediate Christian Endeavor
Leader: Edna Gray.
Topic: The sources of happiness.
Prayer—Mrs. Scales.
Scripture: John 4:8-14.
Leader's talk—Edna Gray.
Song 3.
Piano solo.—Kathrine Manville.
Song 13.
Happiness.—Talk by Mrs. Scales.
Quartet: Mildred Scales, Mildred Woodward, Opal Qualls, Kathrine Manville. —"Bringing in the Sheaves."
What is true happiness?—Juanita Bennett.
What is the difference between happiness and pleasure?—Mildred Woodward.
What spoils happiness?—Kathrine Manville.
What brings happiness?—Gatherine Williams.
Business.
Benediction.
The Intermediate Endeavor will meet at Mrs. Scales home Saturday from 4 to 5 o'clock. Every one that wishes to join please be present.

CLARA KIMBALL YOUNG COMING NEXT WEEK IN BIG NEW DRAMA

What is pronounced by critics to be the best starring vehicle Clara Kimball Young has had in years, will be the offering at the McSwain theatre, Monday and Tuesday. The picture, "What No Man Knows," was filmed from Sada Cowan's original story and shows how valiantly a real woman can fight for the possession of the greatest thing in life.
In no role of recent or past accomplishment has Miss Young ever appeared to such advantage as in this new picture.
Her physical loveliness is always hailed with delight by fans everywhere and this coupled with her dramatic powers never fails to bring photoplay entertainment of the highest type.

In "What No Man Knows," Miss Young seeks to recover from the dregs the man she loves and who has unfortunately fallen into oblivion through the evil machinations of a self-seeking and false wife.

The school days romance still lives as the years roll by, and though the one she loves has strayed from the paths of righteousness, her own faith in him never falters. The story brings out clearly how good men can go to ruin, though no faults of their own and how they can be restored by truth and love. There are many new and novel twists to the story that offer refreshing relief. The establishment of milk depots for the poor, a great courtroom trial scene of unusual dramatic tenacity, interspersed with and subsequent loss of a little orphan girl of Norma Harvey (Clara Kimball Young.)
